

The Ethnicity/Racial Report is intended to assist sponsors with completing their required reporting on the race and ethnicity of the children served. It is a report by month of race and ethnicity information on each participant that attended that month. The Ethnicity/Racial Report is a “real-time” report. It simply reports the status of each participant’s race and ethnicity category at the current time.

The choices on the Ethnicity/Racial Report include the month/year and then up to three additional options:

- “All” should appear for all sites. This means that all participants will be on the report, including those marked as non-CACFP.
- “CACFP” will appear for all sites. This means that only children marked as participating in CACFP will be included on the report. Non-CACFP children will be excluded.
- “ARAM” will appear as an option if “After School Meals” is checked in Site Details. Running the report with “ARAM” selected means that only children marked as participating in the At-Risk Afterschool Meals program will appear on the report. Non-CACFP and non-ARAM children will be excluded from the report.

To run the report, make your selections for the month/year and the filter for children to include and click the green “Run Report” button. A hyperlink “Download Report” will appear. Click the hyperlink to download or open the report. This is what the Ethnicity/Race Report looks like:
