

Menu: Food Production: Finalizing Food Production Records

Once a food production estimate is created, you can see it in Food Production Reports and on the Meal Details page. However, a food production record is not locked-in until it is finalized. Advantages of taking the extra step of finalizing a food production record:

1. The menu is locked after a food production record is finalized. This means that menus cannot be edited unless the food production record is deleted. Finalizing food production records ensures that your menu will always match your food production records.
2. A date/time stamp will be associated with a finalized food production record. This assists sponsors in ensuring that food production records were created in a timely manner.

To finalize a food production record:

- Click on “Menu” on the main dashboard.
- Click on the date and meal for which you would like to finalize a food production record.
- Click on the blue “Finalize Food Production Record” in the lower right corner.
- A warning box will appear. Click “OK”.

- You will now be returned to the Meal Details screen. You will note that the “Edit Menu” button is now gone and a date and time stamp is displayed for the finalized food production record.
