

Emergency Shelter Sponsor Admin: User Guide

Welcome to My Food Program! This User Guide will help you navigate your way through the My Food Program website. You will find a section for each area of the website which includes instructions for getting up and running. This is meant to be the optimal method of setting up My Food Program. Certain features work better if you input data in a specific order, as it allows you to match up certain data fields. While there is no “wrong” way to enter data, this guide will walk you through in a way that will minimize your effort. If you still have questions, please don’t hesitate to contact us at info@myfoodprogram.com or 651-433-7345.

Above is a sample of your My Food Program dashboard. You are able to add your company logo to further personalize this page by going to the Setup tab.

Sponsor Level

The Sponsor Setup tab has all the essential information about your sponsorship.

All fields below are required:

- Name: the name that you would like to appear on all forms
- Legal Name
- Sponsor Identification Number: typically assigned by the state agency
- Status: active/inactive
- Address, City, State, ZIP
- Email Address: this is the primary email contact for the sponsorship
- Phone
- Logo: the logo you upload here will be the one your sites see when they login to My Food Program. If you do not upload a logo here, then your sites will see the My Food Program logo when they login.
- Allowed Meal Types: these are the meal types that are possible to be added by sites. For example, if “Early Snack” is not a meal that is eligible for reimbursement in your state, then leave this box unchecked and no sites can add an early snack in error.

Sponsor Principals:

If you wish to track sponsor principal individuals and their training, you can do that here.

To add a sponsor principal::

- Click on “Setup” from the main sponsor dashboard.
- Click the blue “Add” button.
- Complete the fields:
 - **Name (required)**: include the name as it appears on official documents.
 - **Position (required)**: job title or position on the Board of Directors (for non-profit).
 - **Birthdate (required)**
 - Term Dates (optional): for members of the Board of Directors.
 - **Address (required)**: assists with identification.
 - **Email Address (required)**
 - Employer (optional): if Board Member.
 - Job Title at Employer (optional).
 - Conflicts (optional): record conflicts of interest.
 - Checkboxes for “Can Vote” and “Receives Compensation” (optional).
- Click “Save”.

 Compensation For Serving

The Sponsor Licensing tab allows you to configure the licensing age ranges according to the state regulations. If you are not using My Food Program to confirm that attendance and meal counts are within licensed capacity, you can skip this step.

To configure licensing age ranges:

- Click on “Licensing” on the main sponsor dashboard.
- Click the blue “Add” button.
- Create all the age ranges.
 - Age ranges cannot overlap unless one is marked as a “school age” and one is marked as “non-school age”.
 - Use the overlapping age ranges if the state agency that sets licensing age ranges for emergency shelters uses school enrollment as part of the definition of an age range instead of just calendar age. For example, in some states “school age” means a child who is 5 years or older. In other states, the term “school age” means a child who is enrolled in school, which may or may not include 5 and 6 year olds.
 - If you use overlapping age ranges, then you MUST use the “Is enrolled or attending school” box in participant information.

Licensing Age Range

Name

Min Age

Max Age

School Age Range?

Sponsor users are employees or contractors with the sponsoring organization that should have access to information about all sites under a sponsorship. If you would like an individual to only have access to some sites, you should add them as site-level users instead. See separate instructions for details.

To add a sponsor user:

- Click on “Users” on the main sponsor dashboard.
- Click on the blue “Add” button.
- Enter the fields:
 - **Name (required)**
 - **Username (required)**
 - **Password (required):** must be at least 12 characters.
 - **Confirm Password (required)**
 - Email Address (optional)
 - Phone Number (optional)
 - Start Date (optional)
 - End Date (optional)
 - Status: active/inactive. A sponsor user marked as inactive will not be able to log in.
 - **Role (required):** select “Sponsor Admin” which gives full permission to all sponsor and site-level information or “Sponsor Reporter” which is mostly read-only. For more information, refer to the Permissions Matrix.
 - Notes: for your records.

The screenshot shows a form titled "Staff Info" with the following fields and options:

- Name: [Text Input]
- User Name: [Text Input]
- Password: [Text Input]
- Confirm Password: [Text Input]
- Email Address: [Text Input]
- Phone Number: [Text Input]
- Start Date: [Text Input]
- End Date: [Text Input]
- Status: [Dropdown Menu] (Current selection: Active)
- Roles: Sponsor Admin, Sponsor Reports
- Notes: [Text Input]

- Training: enter training here if you would like to use My Food Program to track training by sponsor staff.

To add a new sponsor staff training:

- Click on “Users” on the main sponsor dashboard.
- Click on the name of the sponsor user.
- Click the blue “Add” button in the training section.
- Enter the fields:
 - **Training Date (required)**
 - **Training Type (required)**
 - Description (optional): for your records.
 - Upload a scan or photo of the training agenda and/or signed training roster (optional).

Sites can be added to My Food Program either individually or uploaded in bulk.

To add a single site:

- Click on “Sites” on the main sponsor dashboard.
- Click on the blue “Add” button in the upper right corner.
- Enter the Site Details. For information about how to set up a site, reference the guide on Site Configuration.
- Click “Save”.

Sponsors that are going to use My Food Program for multiple sites can save time by creating sites using our import feature rather than creating each site individually.

To bulk import sites:

- Download the Site Import Template.
- Enter the information for your sites using copy/paste or by renaming the columns in your own spreadsheet.
- Save the document and ensure that you retain the .csv file extension. Files with Excel .xlsx extensions will not work.
- Click the blue “Upload Sites” button.
- Locate the file in with the site information.
- You will now see a list of sites. Click on the checkbox next to the word “Name” to mark all sites for upload. If you only wish to upload some sites, click them in individually. Any errors will be displayed on the far-right column; sites with errors will not be uploaded.
- Click “Save” and your sites will be uploaded.

Upload Sites

Site claims can be run individually or for all sites under a sponsorship at once. To run a claim individually, refer to the guides on claims processing. Claims that have been “Submitted to Sponsor” (i.e. through step 3 in the claims process) will be included when processing claims in bulk.

To run claims in bulk:

- Click on “Claims” on the main sponsor dashboard.
- Select the month/year for claims processing.
- Click the green “Create Claims” button. The claims creation process may take several minutes depending on the size of the sites and their configuration.
- Completed claims will appear on the screen. Clicking on the name of the site will take you to the Claim Summary page at the site level.

Claims										08/01/2018	Create Claims
Site Name	Claim Type	Days Open	Total Attendance	Total Meals	Submitted Meals	Rejected Meals	Average Daily Attendance	Payable Meals	Non Payable Meals		
Emergency Shelter	CACFP	23	172	380	380	0	7.5	380	0		

Sponsor: Sponsor Reports: Average Daily Participation

The majority of reports are contained in site-level reports. Sponsor-level reports are those that aggregate data across multiple sites. The **Average Daily Participation Report** shows the average daily participation for meals. It is most often used by sponsors in Texas, but can be used by any sponsor.

To run the Average Daily Participation Report:

- Click on “Reports” on the main sponsor dashboard.
- Click the hyperlink for Average Daily Participation Report.
- Select the month/year for the report.
- Click the green “Run Report” button. A hyperlink will appear - click the link to download or view the report.

Test Sponsor		Average Daily Participation		Claim Month: 8/1/2018	
Site Name	Site ID	Meal	Total Days	Number Served	ADP
Emergency Shelter	EMERGENCYSHELTER	Breakfast	23	128	5.57
Emergency Shelter	EMERGENCYSHELTER	Lunch	23	138	6.00
Emergency Shelter	EMERGENCYSHELTER	Supper	23	114	4.96

The majority of reports are contained in site-level reports. Sponsor-level reports are those that aggregate data across multiple sites. The **CLiCS Report** generates a .txt file that can be directly uploaded into the Minnesota state agency claiming system, CLiCS.

To run the CLiCS Report:

- Click on “Reports” on the main sponsor dashboard.
- Click the hyperlink for CLiCS Report.
- Select the month/year for the report and add comments.
- Click the green “Generate File” button. A hyperlink will appear - click the link to download the file.

Sponsor: Sponsor Reports: Claim Summary Report for Sponsors of Unaffiliated Centers

The majority of reports are contained in site-level reports. Sponsor-level reports are those that aggregate data across multiple sites. The **Claim Summary Report for Sponsors of Unaffiliated Centers** shows claim summary for unaffiliated centers. It includes the amount of funds going to the sponsor (15% of meal reimbursement), the amount of funds going to the site (85% of meal reimbursement plus full cash-in-lieu payment).

To run the Claim Summary Report for Sponsors of Unaffiliated Centers:

- Click on “Reports” on the main sponsor dashboard.
- Click the hyperlink for Claim summary report for sponsors of unaffiliated centers.
- Select the month/year for the report.
- Click the green “Run Report” button. A hyperlink will appear - click the link to download or view the report.
- The report is in Excel format with the following fields:
 - Claim Date
 - Site Name
 - Site ID
 - Claim Type (CACFP or ARAM)
 - Food Service Funds (payment to center)
 - Admin Funds (payment to sponsor)
 - Total Claim

Claim Date	Site Name	Site Id	Claim Type	Food Service Funds	Admin Funds	Total Claim Cost
8/1/2018	Emergency Shelter	EMERGENCYSHELTER	CACFP	\$962.97	\$159.49	\$1,122.46

The majority of reports are contained in site-level reports. Sponsor-level reports are those that aggregate data across multiple sites.

To view information about site claims across a sponsorship:

- Click on the “Reports” tab on the main sponsor dashboard.
- Select the claiming method and the month/year for which you would like to view claims.

Menu

To plan a new menu:

- Click on “Menu” on the main dashboard.
- Click on the date and meal type for which you want to enter a menu.
- To plan a menu for children ages 1 and older:
 - Click on the blue “Edit Menu” button.
 - Enter the “Description for Print View”. Note that whatever is entered in this box is what will appear when you print a menu. If you are planning to print and post a menu for parents, we strongly recommend that you use this description feature.
 - If you wish to use a saved menu, select it from the “Menu” drop-down, then make any changes and click Save
 - If you want to enter food items without using a saved menu:
 - Go through each of the required components and select the food item that you are using to meet that meal pattern requirement.
 - You must have a food item for each required meal component in order to save the menu.
 - You may add food items using the drop-down “favorite foods” list or you may search for items. If you use the search function, we recommend keeping your search term broad as the system will not recognize mis-spelled words or partial matches.
 - If you select a food item by mistake, simply click the red “Remove” button.
 - When you are done, click “Save”. If there the menu does not meet the meal pattern requirements, you will receive an error message in red at the top. Otherwise, if the menu meets the meal pattern requirements, you will return to the menu details screen.

To plan a menu for infants:

- Click on the blue “Edit Infant Menu” button.
- Under “Description” select the infant age range for which you want to plan a menu. **Note: the system prompts you to select the age range of the OLDEST infant in care. If you have only infants 5 months and younger, select the choice “Oldest Infant in Care 0-5 months”. If you select this choice, you not be entering items other than formula/breast milk. If you have any infants at all that are 6 months or older, select “Oldest Infant in Care 6-11 months”. Then you will be prompted to enter food items in addition to formula/breast milk.**
- Select the food items that you are using to satisfy the infant meal components. You are not required to enter anything other than formula/breast milk since it may be possible that an infant is not developmentally ready for food items.
- You may enter as many food items as you want.
- If you need to record which specific foods were consumed by each specific infant, then you should enter all the foods offered and use the Infant Food Serving Report to match each infant to the specific food they ate.
- When you are done, click “Save”. If there the menu does not meet the meal pattern requirements, you will receive an error message in red at the top. Otherwise, if the menu meets the meal pattern requirements, you will return to the menu details screen.

Menus can be edited unless:

1. A food production record has been created. If you want to edit a menu and a food production record has already been created based off that menu, then you need to delete the food production record before you can edit the menu.
2. A claim has been processed for the month. If you want to edit a menu and a claim has been created, you need to roll-back the claim, edit the menu, and then re-process the claim.

To edit a planned menu:

- Click on “Menu” on the main dashboard.
- Click on the date and meal you wish to edit.
- Remove, add or substitute the food items.
- Click “Save”. If the menu you planned meets the meal pattern requirements, then you will be re-directed to the Meal Details page. If your menu does not meet the meal pattern requirements, you will see info boxes in red that will identify the errors.

My Food Program allows flexibility when it comes to recording fluid milk. Please review the two options below and begin using the milk type that works best for the requirements in your state.

Option #1:

Your State Agency does not require menus or food production records to be specific about the types of fluid milk served. When planning menus, you should use the menu item “Milk, fluid”. Using this as your menu item indicates to the state agency that children are receiving milk in the appropriate fat percentage for their age category, but does not track amounts by separate milk types.

Your menu will say “Milk” and your Food Production Record will indicate how many total cups of milk of all types you served.

Favorite Foods

As you are planning menus, you may find that you use the same foods over and over. It would take a considerable amount of time to search for a food item each time you want to include it in a menu. That's where favorite foods comes in. If a food item is designated as a favorite, it will appear in the drop-down menu when planning menus.

A few items are automatically set to be favorites. To add or remove items from your favorite foods list:

- Click on “Menu” from the main dashboard.
- Click on “Favorite Foods” in the upper-left corner.
- Check the box next to food items that you want as favorites.
- Uncheck the box next to any food items that you want to remove as favorites.
- Click “Save”.

Saved menus reduce the amount of time it takes to plan and record the food items that you are going to use to satisfy each meal pattern group. There are two ways to create a saved menu.

Method #1 to Create a New Saved Menu:

- Click on “Menu” from the main dashboard.
- Click on “View Menus”.
- Click on the blue “Add Menu” button on the upper-right corner.
- Complete the fields for:
 - Name: this is a required field and will be the name that will appear in the drop-down when you plan your daily menus. You may name it with just an entree, for example “Baked Chicken Lunch”, or with a list of the food items, for example “Yogurt and Crackers” or with the information from a cycle menu plan, for example “Monday Breakfast Week 1”.
 - Description: the description is what will appear on the printed version of your menu. If you do not enter any text in the “Description” box, then the names of the food items will appear on the printed version of your menu. If you plan to print and post your menu, it would be best to complete the description.
 - Meal Pattern: this is a required field. Select whether you are planning a breakfast, snack or lunch/supper so that the correct meal pattern appears during menu planning.

Home / Menu / Saved Menus / Saved Menu

Saved Menu

Name: Baked Chicken Lunch

Description: Baked Chicken
Whole-Grain Bread

Meal Pattern: New Lunch/Supper

- Enter the food items for your saved menu using favorite foods and/or the food search function.
- Click “Save”.
- Your new Saved Menu now appears as a choice when completing a daily menu.

Baked Chicken Lunch	Baked Chicken Whole-Grain Bread Corn Watermelon Milk	1.00 Bread, whole wheat 1.00 Chicken, cooked 1.00 Corn 1.00 Watermelon 1.00 1% Milk for all participants 2 and older 1.00 Whole milk for ages 12-23 months	New Lunch/Supper	Copy
---------------------	---	---	------------------	------

Saved menus reduce the amount of time it takes to plan and record the food items that you are going to use to satisfy each meal pattern group. There are two ways to create a saved menu.

Method #2 to Create a New Saved Menu:

- Click on “Menu” from the main dashboard.
- Click on the date and meal type that you want to plan, for example, lunch on July 27.
- Complete the steps to plan a menu by adding required food items using favorite foods and/or the food item search function.
- Click “Save” to return to the Meal Details screen.
- Click the blue “Save Menu” button underneath the Menu.

- Make any edits and click “Save”.
- Your new Saved Menu now appears as a choice when completing a daily menu.

Menu: Saved Menus: Modify an Existing Saved Menu

A saved menu can be edited at any time. Be aware that any meals that were recorded using that saved menu in the past **will not be changed**. If you need to change the food items served on a particular day, you will need to edit the planned menu.

To edit a saved menu:

- Click on “Menu” from the main dashboard.
- Click on “View Menus” in the upper-left corner.
- Click on the name of the saved menu that you want to edit.
- Make any changes to the menu that you need by removing and/or adding items. You can also change the Name and Description of the menu. You should not change the Meal Pattern associated with the saved menu.
- When you are done making changes, click “Save”.
- The edited saved menu is now available on your list.

Menu: Saved Menus: Copying a Saved Menu

A saved menu can be copied. You would use this feature if you are creating a new saved menu with food items that are substantially the same. For example, if you have a saved menu of Pancakes, Applesauce and Milk and you want to create a new saved menu with Waffles, Applesauce and Milk. Copying the saved menu with pancakes may be faster than creating a new saved menu.

To copy a saved menu:

- Click on “Menu” on the main dashboard.
- Click on “View Menus” in the upper-left corner.
- Locate the saved menu that you want to copy and click on the blue “Copy” button on the far right side.

- Make any changes to the saved menu. Note: you need to give each saved menu a unique name. You should not change the Meal Pattern associated with the saved menu.
- Click “Save”.
- Your new saved menu is now available for menu planning.

Menus can be copied from one week to any other week and within sites under the same sponsor.

To copy a menu:

- Click on “Menu” from the main dashboard.
- Scroll to the bottom of the menu calendar page to the section titled “Copy Weekly Menu”.

- All fields are required:
 - Week Start Date: this is the week that is your master copy. Only Sundays will be able to be selected. **You can only copy by the week. You cannot copy only one day to another day.**
 - Start Date to Copy to: this is where your new menu will appear. **The week that you are copying TO must be empty.** If you attempt to copy a menu to a week with any menus planned, you will get an error.
 - Number of weeks: you may choose to copy up to 6 weeks of menus to another period of 6 weeks. This is especially helpful for programs that use a rotating menu.
 - Destination Site (**note**: this option does not appear for any site-level staff. This option is only available to sponsor admin users): the drop-down menu defaults to the current site. If you wish to copy menus from one site to another site, then select the destination site here.
- Click “Copy Meal Menu”.
- You can confirm that the menus were copied by looking for the icons on the menu calendar page.

A menu can be printed directly from the My Food Program web app or by exported into Excel. **Note: the words that appear in print view are from the “Description” field in each day’s menu if that is completed. If the “Description” field is left blank, then the name of the food item is placed on the printed menu.** If you are planning to post a menu for parents to see, we highly recommend completing the “Description” field on each day’s menu.

To print a menu:

- Click on “Menu” on the main dashboard.
- Select the month and year that you would like to print.
- Scroll to the bottom and select one of the following:
 - “Print View” will open a print-friendly web page. Use your web browser’s print function to generate a printed version of your menu. Landscape orientation is usually best.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
1	2 Breakfast: English Muffins, Apples and Milk. - “Export to Excel”. After you click “Export to Excel” a report will be generated and the page will refresh. Click on “Download Excel Report” and save the Excel document in your location of choice. Once in Excel, you can modify the food items, fonts, column widths and add your own logo and images. Note that any changes you make to the menu in Excel will not be transferred to My Food Program. Substitutions and menu changes must be recorded directly in My Food Program.

Menu: Edit Meal Count from Menu Page

Meal counts can always be edited by going to the main dashboard and clicking on “Meal Count”. There is also a shortcut to editing meal counts from the menu page.

To edit meal counts from menu page:

- Click on “Menu” on the main dashboard.
- Click on the date and meal that you want to edit.
- Click on the blue button on the right side that says “Edit Meal Count”.
- The “Edit Meal Count” page appears. From here you can view which children were checked in for that meal and on which roster. You can delete meal check-in’s by clicking the red “Delete” button.

Edit Meal Count			
Date	07/05/2018		
Meal	AM Snack		
Participant	Roster	Status	Delete
Roger Jones	Toddler	NEW	<input type="button" value="Delete"/>
Jane Smith	Toddler	NEV	<input type="button" value="Delete"/>
Nia Parker	Toddler	NEV	<input type="button" value="Delete"/>
Susie Doe	Toddler	NEW	<input type="button" value="Delete"/>

Menu: Deleting a Menu

You may delete a menu as long as the meal has not been included in a claim. If a food production record has been created based on the menu, deleting the menu will ALSO delete the food production record. This is to ensure that the menu and food production record always match.

To delete a menu:

- Click on Menu on the main dashboard.
- Click on the date and meal that you want to delete.
- Click the red “Delete Menu” or “Delete Infant Menu” button.
- The menu is now deleted and the fork/knife icon disappears from the menu calendar.

Before creating a new food production record:

1. Make sure that a menu is planned. If no menu is planned, the button “Edit Food Production” will not appear.
2. Remember that once a food production record is finalized, the menu can no longer be edited. This is to ensure that the menu always matches the food production record.
3. Remember that only one food production record can be associated with a particular date and meal.
4. Food production records can be deleted at any time, but a menu cannot be changed if a claim has been processed.

To create a new food production record:

- Click on “Menu” on the main dashboard.
- Click on the date and meal for which you would like to generate a food production record.
- Click on the blue “Edit Food Production” button in the lower right corner.
- The food production screen is divided into two parts: Food Production and Milk Production. It is separate because the age ranges for milk are different than the age ranges for food.
 - Food production has three columns:
 1. Number of participants: this is the column that will be used to generate the food production estimates. My Food Program will multiply the number of participants in each age range by the minimum portion size requirements associated with that age range. Note: the two infant age ranges are listed, but food for infants is not included in the food production estimates. The system disregards any numbers entered in the first two rows.
 2. Our Estimate: this column is greyed-out because it cannot be edited. Numbers appear here in two circumstances:
 - Based on participant schedule: if information about participant schedules are completed, My Food Program can estimate how many children in each age range are likely to be attending the meal.
 - Based on meal counts: if meal counts have already been taken for the meal, then it will display the number of children in each age range that were checked in.
 3. Age Range: A list of the CACFP age ranges.

Number of participants Our Estimate		Age Range	
<input type="text"/>	<input type="text" value="0"/>	0 Months - 5 Months	Not included in quantities below, see Infant serving record
<input type="text"/>	<input type="text" value="0"/>	6 Months - 11 Months	Not included in quantities below, see Infant serving record
<input type="text"/>	<input type="text" value="2"/>	1 Year - 2 Year	
<input type="text"/>	<input type="text" value="3"/>	3 Year - 5 Year	
<input type="text"/>	<input type="text" value="1"/>	6 Year - 12 Year	
<input type="text"/>	<input type="text" value="0"/>	13 Year - 17 Year	
<input type="text"/>	<input type="text" value="0"/>	18 Years	

- Milk production also has three columns and they behave in the same manner as the food production section. You will note that milk is divided into different age ranges:
 1. 12-23 months: all these children should be receiving whole milk unless there is a special dietary need or they are still receiving breastmilk.
 2. 24 months: CACFP regulations allow for a transition month. Milk of any fat percentage can be served during this period.
 3. 25-35 months: Once a child is 25 months old, they must be receiving skim or 1% milk.

Number of participants Our Estimate		Milk Age Range
<input type="text"/>	<input type="text" value="0"/>	24 Months - 24 Months
<input type="text"/>	<input type="text" value="2"/>	12 Months - 23 Months
<input type="text"/>	<input type="text" value="0"/>	25 Months - 35 Months
<input type="text"/>	<input type="text" value="3"/>	3 Years - 5 Years
<input type="text"/>	<input type="text" value="1"/>	6 Years - 17 Years
<input type="text"/>	<input type="text" value="0"/>	18 Years

- Complete the fields for “Number of Participants”. If there are no participants in a particular age range, you can leave it blank. It is not necessary to type a zero into those fields.
- Click the blue “Estimate Production” button and the estimates will appear at the bottom. To generate the estimates, My Food Program multiplies the number of participants in each age range by the minimum portion size requirements associated with that age range.

Amount	Unit	Food
<input type="text" value="3.5"/>	oz	Cottage cheese
<input type="text" value="15"/>	Crackers	Crackers, Triscuit, original

- **NOTE: the units used in the food production records are tied to the food item that you selected on the menu.** If you wish to change the units, you must go back to the menu and select a different food item. For example, if you want your food production record to be pounds, then you need to select a food item with “(in lbs)” in the description. Otherwise, the units will default to those used in the meal pattern requirements (cups, servings, and ounces).
- Edit the estimates to reflect the actual amount of food and fluid milk produced and click “Save” to be returned to the Meal Details screen. You will now see the food production amounts listed on the Meal Details screen.

Food Production	15 Crackers Crackers, Triscuit, original
	3.5 oz Cottage cheese

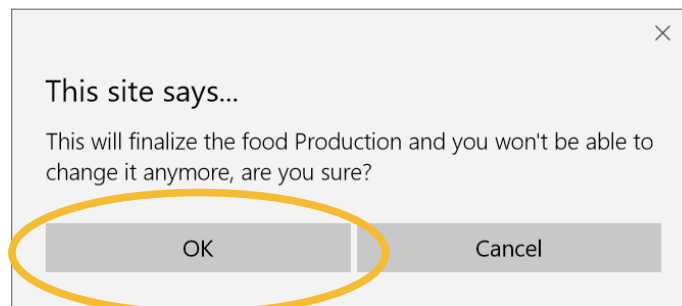

Menu: Food Production: Finalizing Food Production Records

Once a food production estimate is created, you can see it in Food Production Reports and on the Meal Details page. However, a food production record is not locked-in until it is finalized. Advantages of taking the extra step of finalizing a food production record:

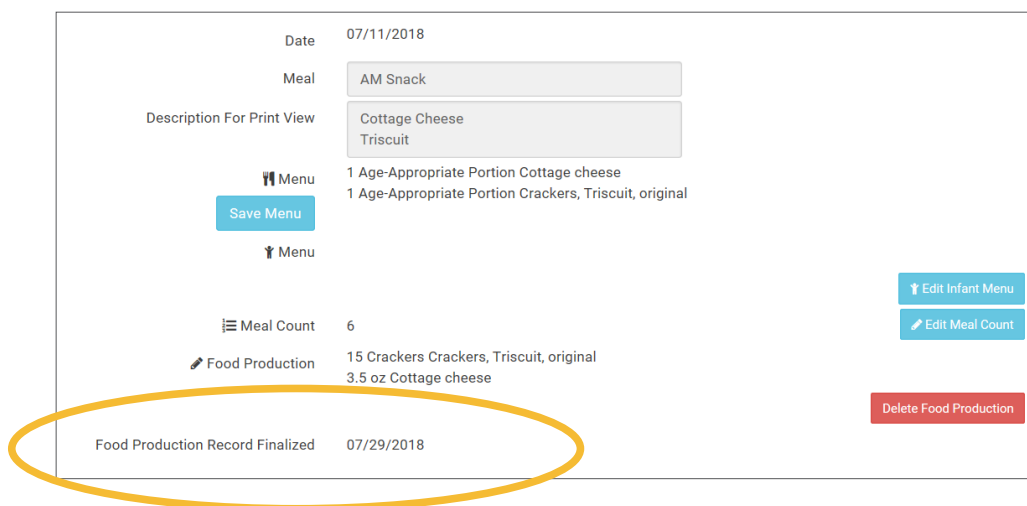

1. The menu is locked after a food production record is finalized. This means that menus cannot be edited unless the food production record is deleted. Finalizing food production records ensures that your menu will always match your food production records.
2. A date/time stamp will be associated with a finalized food production record. This assists sponsors in ensuring that food production records were created in a timely manner.

To finalize a food production record:

- Click on “Menu” on the main dashboard.
- Click on the date and meal for which you would like to finalize a food production record.
- Click on the blue “Finalize Food Production Record” in the lower right corner.
- A warning box will appear. Click “OK”.

- You will now be returned to the Meal Details screen. You will note that the “Edit Menu” button is now gone and a date and time stamp is displayed for the finalized food production record.

Menu: Food Production: Deleting Food Production Records

You may wish to delete a food production record under the following circumstances:

1. You had a last-minute change to your menu and the food production record is now incorrect.
2. You made an error in the original food production record.

To delete a food production record:

- Click on “Menu” on the main dashboard.
- Click on the date and meal for which you would like to delete a food production record.
- Click on the red “Delete Food Production Record” in the lower right corner.
- You will see a warning box. Click “OK”.

- You will be returned to the Meal Details screen. You will note that the “Edit Menu” button has now returned (unless a claim has already been processed for that month) and the time/date stamp associated with the original finalized food production record is gone.

Menu: Food Production: Food Production Report

This is an output of the food production information entered in the menu screen. It has the date, meal type, actual meal count and the amount prepared for each menu item.

The only selection required for the Food Production Report is the date range.

To run the report, make your selection for the date range and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

Attendance

Attendance: Attendance Required Before Meal Counts

Attendance records and meal count records are always kept separately in My Food Program. However, sponsors do have two options about the relationship between attendance and meal counts:

1. Attendance is required to be taken before meal counts can be generated, only participant checked in for a meal will show up on the meal count roster. This is the default for all sites.
2. A separate system is used to record attendance such as your site management software or paper forms and attendance will be generated from meal counts. **Note: even with this option, attendance records are separate from meal counts as a double-check and can be manipulated independently. It is possible to check a child in for attendance and not check them in for a meal. While meal count records are used to generate attendance records, the reverse is never true. Attendance records are never used to generate meal counts.**

Regardless of the settings, attendance must always equal or be greater than meal counts. If not, the system triggers an error for “Meal count greater than number of participants” and the claim cannot be processed. These options are configured in “Site Details”.

If the box that says “Attendance Records Kept Outside of My Food Program” is UNCHECKED

then attendance is required before meal counts can be generated. Only children who are checked in for attendance will appear on the meal count screen.

Note: this is the default setting.

Method

Attendance must be taken in order for meal counts to be entered (default).

Children Displayed on Meal Count Screen

Only those checked in for attendance.

If the box that says “Attendance Records Kept Outside of My Food Program” is CHECKED

then meal counts will be used to generate attendance.

Note: using this option may mean that you must conduct a manual 5-day reconciliation on review visits using attendance records from outside of My Food Program, for example through parent sign in/sign out sheets. Follow instructions from your state agency.

Method

A separate system is used for attendance and meal counts are used to generate attendance. Attendance can also be entered manually.

Children Displayed on Meal Count Screen

All children.

Attendance: Taking Attendance Using Present Option using Web App

Attendance and meal counts can be recorded three ways:

- **Web app** through any web browser, such as Chrome, Explorer, Edge or Safari.
- **Mobile app** available through the Google Play or iTunes.
- **Paper**, which must then be manually entered using the web app.

Attendance can be taken two different ways and the method is set in “Site Details”.

1. **Present:** simply records whether the child was in attendance on a day or not
2. **In/Out:** records an arrival and departure time

If you would like to take attendance using the “Present” option, make sure that in Site Details, you have “Daily Attendance Method” set to “Present”.

Daily Attendance Method

Present

To Take Attendance:

- Click on the “Attendance” button on the main dashboard.
- Select the Date (note that you cannot take attendance for future dates).
- (Optional) Select the Roster for which you want to take attendance.
- Click the box next to the name of each participant in attendance.
- Click “Save”.

Attendance

Date: 07/26/2018

Attendance: Taking Attendance Using Present Option using Mobile App

Attendance and meal counts can be recorded three ways:

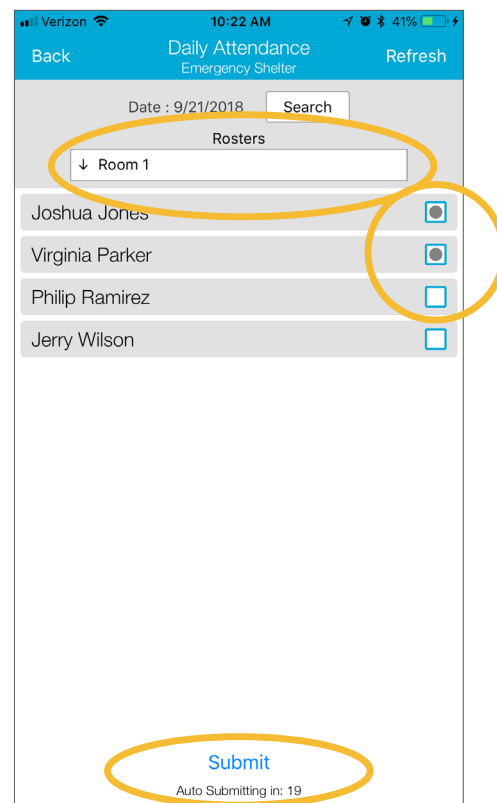

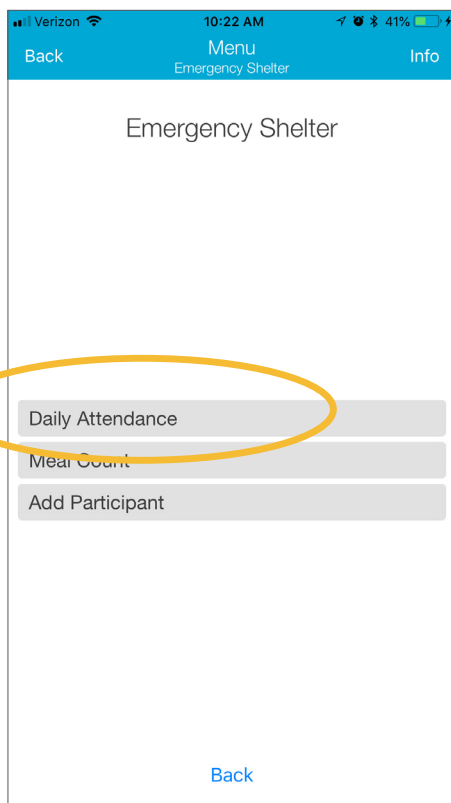

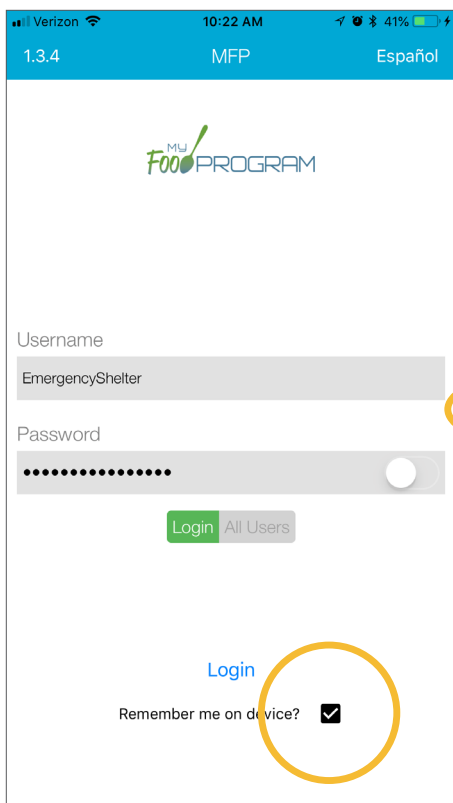

- **Web app** through any web browser, such as Chrome, Explorer, Edge or Safari.
- **Mobile app** available through the Google Play or iTunes.
- **Paper**, which must then be manually entered using the web app.

Attendance can be taken two different ways and the method is set in “Site Details”.

1. **Present:** simply records whether the child was in attendance on a day or not
2. **In/Out:** records an arrival and departure time

To take attendance using the present option using the mobile app:

- Download the My Food Program mobile app in iTunes or Google Play by using the search term “My Food Program” and installing.
- Login to the mobile app using the same username and password that you use for the web app. If you’d like to only enter your password once, check the box that says “Remember me on device”.
- Click on the “Daily Attendance” button.
- Select the roster for which you are taking attendance.
- Select those that are present.
- Click “Submit”. Other people who login or refresh their screens will see these children as checked in. It will also synchronize in real time with the web app.

Attendance: Taking Attendance Using Present Option using Paper Method

Attendance and meal counts can be recorded three ways:

- **Web app** through any web browser, such as Chrome, Explorer, Edge or Safari.
- **Mobile app** available through the Google Play or iTunes.
- **Paper**, which must then be manually entered using the web app.

Attendance can be taken two different ways and the method is set in “Site Details”.

1. **Present:** simply records whether the child was in attendance on a day or not
2. **In/Out:** records an arrival and departure time

To record attendance using present option on paper:

- Print the meal count and attendance sheets from the web app by clicking on “Enter Attendance & Meal Count from Paper” on the main dashboard.
- Select the date and roster for which you would like to print the paper forms and click “Submit”.

Enter Attendance & Meal Count from Paper

Roster:

- You will now see a list of children that are assigned to that roster along with a list of the meals served. Scroll to the bottom of the page and click the green “Print” button on the bottom-left corner.
- My Food Program will generate a PDF document to print. You may need to adjust your printer setting, especially the “fit to page” to ensure that the page prints correctly. We also recommend turning off headers and footers during printing. **Note: if you would like to print paper forms for all rosters simultaneously, this can be done in the “Reports” section. The paper forms generated in reports have a slightly different appearance than the paper forms generated using the method outlined above.**

- Record attendance on the paper forms by placing an “X” or checkmark in the box for each child that attended on each day.
- At the end of the week, gather the paper forms and return to the screen from which you printed the form (i.e. go to “Enter Attendance & Meal Count from Paper” and select the date and roster that matches the completed paper form).
- Check the boxes on the screen that correspond to those checked on the paper form.
- Click “Save”
- You should retain the original paper forms after entering the information into My Food Program since the paper forms were the ones recorded at point-of-service.

Attendance: Taking Attendance Using In/Out Option using Web App

Attendance and meal counts can be recorded three ways:

- **Web app** through any web browser, such as Chrome, Explorer, Edge or Safari.
- **Mobile app** available through the Google Play or iTunes.
- **Paper**, which must then be manually entered using the web app.

Attendance can be taken two different ways and the method is set in “Site Details”.

1. **Present:** simply records whether the child was in attendance on a day or not
2. **In/Out:** records an arrival and departure time

If you would like to take attendance using the “In/Out” option, make sure that in Site Details, you have “Daily Attendance Method” set to “In/Out Times”.

Daily Attendance Method

To Take Attendance:

- Click on the “Attendance” button on the main dashboard.
- Select the Date (note that you cannot take attendance for future dates).
- Select the Roster for which you want to take attendance.
- When the child arrives, use the time-picker function to enter the Time In, or simply click the button that says “Now” from within the time-picker to auto-fill the current time.
- Click “Done” to save the time and then click the green “Save” button to record the time entry.
- When the child departs, use the time-picker function to record the Time Out.
- Click “Save”.
- If a child arrives and departs more than once in a day (for example, a child attends the center before school and then again after school), click the blue plus sign on the far right and enter another set of arrival and departure times using the time picker.

Note: If you do not enter an arrival time and a participant is checked in for a meal, the “Time In” will automatically be set to the time at which the first meal or snack for the day was recorded. **Note:** If you do not enter a departure time, the system will record the departure at 11:59pm.

Attendance: Taking Attendance Using In/Out Option using Mobile App

Attendance and meal counts can be recorded three ways:

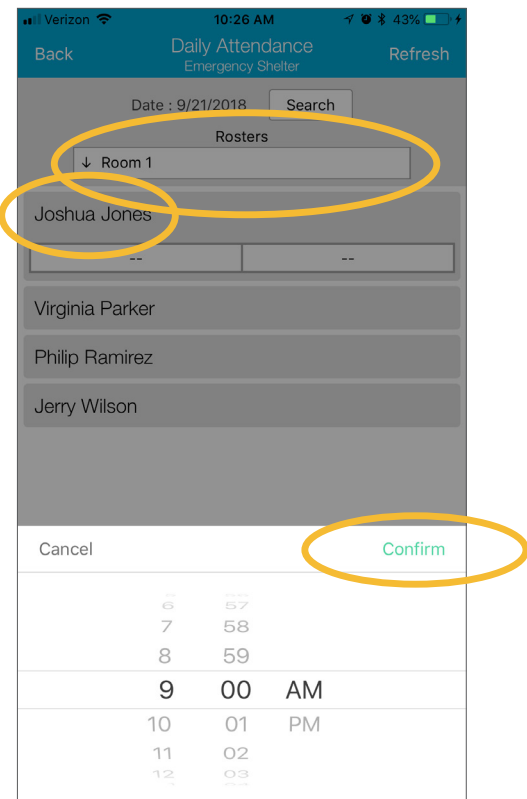

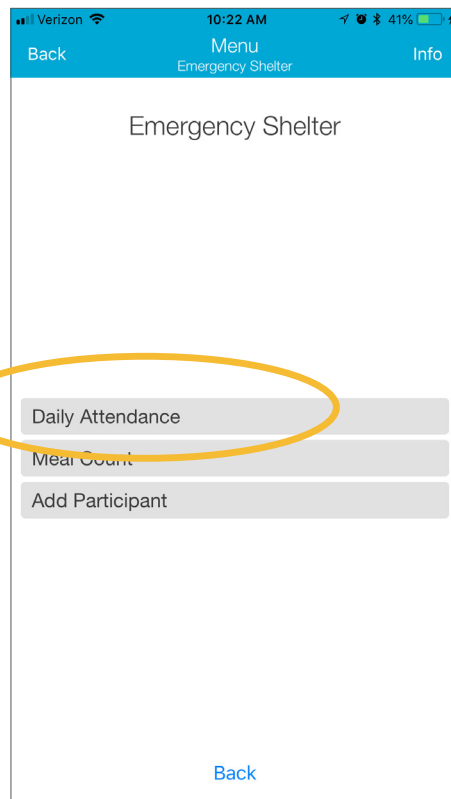

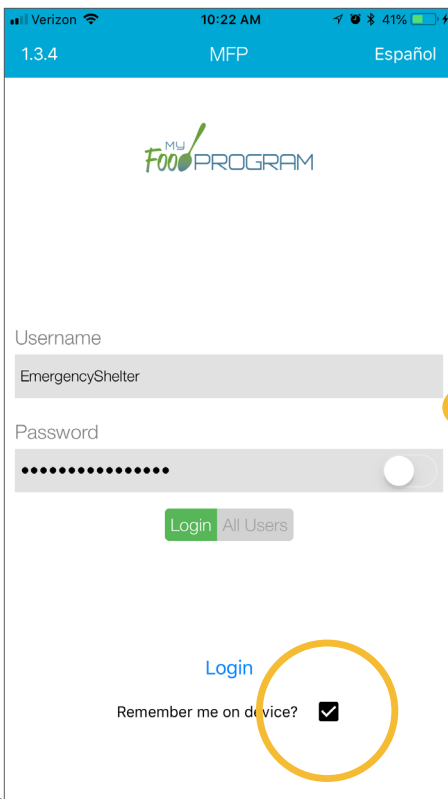

- **Web app** through any web browser, such as Chrome, Explorer, Edge or Safari.
- **Mobile app** available through the Google Play or iTunes.
- **Paper**, which must then be manually entered using the web app.

Attendance can be taken two different ways and the method is set in “Site Details”.

1. **Present:** simply records whether the child was in attendance on a day or not
2. **In/Out:** records an arrival and departure time

To take attendance using the in/out option using the mobile app:

- Download the My Food Program mobile app in iTunes or Google Play by using the search term “My Food Program” and installing.
- Login to the mobile app using the same username and password that you use for the web app. If you’d like to only enter your password once, check the box that says “Remember me on device”
- Click on the “Daily Attendance” button.
- Select the roster for which you are taking attendance.
- Select the name of the child and click on the left box to enter a “time in”. Use the selector to enter the time the child arrived. Click “Confirm”.
- Click “Submit”. Other people who login or refresh their screens will see these children as checked in. It will also synchronize in real time with the web app.

Attendance and meal counts can be recorded three ways:

- **Web app** through any web browser, such as Chrome, Explorer, Edge or Safari.
- **Mobile app** available through the Google Play or iTunes.
- **Paper**, which must then be manually entered using the web app.

Attendance can be taken two different ways and the method is set in “Site Details”.

1. **Present:** simply records whether the child was in attendance on a day or not
2. **In/Out:** records an arrival and departure time

To record attendance using in/out option on paper:

- Print the meal count and attendance sheets from the web app by clicking on “Enter Attendance & Meal Count from Paper” on the main dashboard.
- Select the date and roster for which you would like to print the paper forms and click “Submit”.

Enter Attendance & Meal Count from Paper

Roster:

Toddler ▼

- You will now see a list of children that are assigned to that roster along with a list of the meals served. Scroll to the bottom of the page and click the green “Print” button on the bottom-left corner.
- My Food Program will generate a PDF document to print. You may need to adjust your printer setting, especially the “fit to page” to ensure that the page prints correctly. We also recommend turning off headers and footers during printing. **Note: if you would like to print paper forms for all rosters simultaneously, this can be done in the “Reports” section. The paper forms generated in reports have a slightly different appearance than the paper forms generated using the method outlined above.**

Attendance: Taking Attendance Using In/Out Option using Paper Method

Emergency Shelter		Week beginning 03 Sep 2018					Roster: Room 1

- Record attendance on the paper forms by writing the arrival and departure time for each child that attended on each day.
- At the end of the week, gather the paper forms and return to the screen from which you printed the form (i.e. go to “Enter Attendance & Meal Count from Paper” and select the date and roster that matches the completed paper form)
- Input the in/out times on the screen that correspond to those recorded on the paper form.
- Click “Save”.
- You should retain the original paper forms after entering the information into My Food Program since the paper forms were the ones recorded at point-of-service.

Meal Count

Meal Count: Taking Meal Counts by Name using Web App

Attendance and meal counts can be recorded three ways:

- Web app through any web browser, such as Chrome, Explorer, Edge or Safari.
- Mobile app available through the Google Play or iTunes.
- Paper, which must then be manually entered using the web app.

There are two ways to take meal counts:

1. **Meal count by name (roster-based):** this means that you are selecting the names of individual children for each meal.
2. **Headcount:** this means that you are just counting the number of children present for a meal and entering that number. You are not tracking which children are attending each specific meal.

To take a meal count by name:

- Click on “Meal Count” on the main dashboard.
- Select the date and roster for which you would like to take a meal count. **Note:** the date is defaulted to the current date. Sponsor admin users and site managers/directors (if you allow them) can edit meal counts in the past. Site staff cannot edit meal counts in the past. **No user of any permission level can create meal counts in the future.**
- Click the “Ate” button next to the name of each child in attendance at the meal.
 - **Note:** if a child is on more than one roster and has already been checked in for a meal on a different roster, you will see an indicator and you are prevented from checking in the same participant for the same meal on two different rosters.
- Click “Save” and you will see a confirmation message at the top of the screen that confirms meal counts were saved.

Meal Count: Taking Meal Counts by Name using Mobile App

Attendance and meal counts can be recorded three ways:

- Web app through any web browser, such as Chrome, Explorer, Edge or Safari.
- Mobile app available through the Google Play or iTunes.
- Paper, which must then be manually entered using the web app.

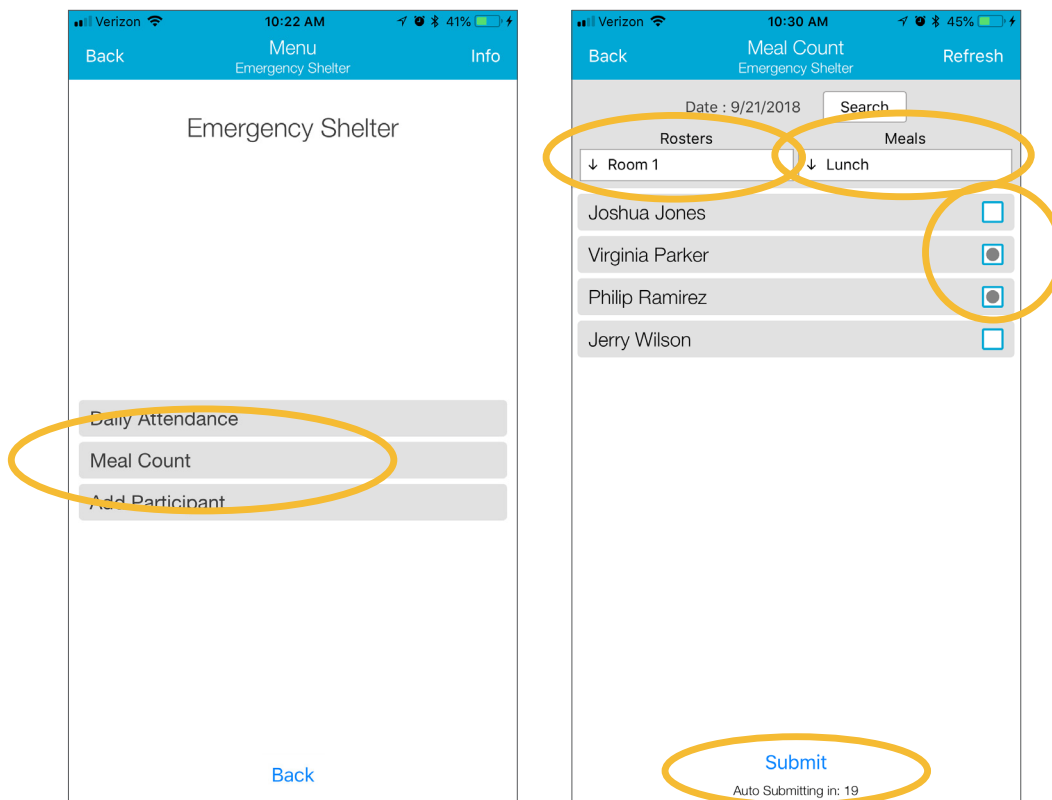

There are two ways to take meal counts:

1. **Meal count by name (roster-based):** this means that you are selecting the names of individual children for each meal. A list of children will now be loaded. Check the box to the right of the child's name for all of the children that ate the meal and click "Submit".
2. **Headcount:** this means that you are just counting the number of children present for a meal and entering that number. You are not tracking which children are attending each specific meal.

To take meal count by name using mobile app:

- Click on the "Meal Count" button and select the correct roster and meal. A list of children will now be loaded. Check the box to the right of the child's name for all of the children that ate the meal and click "Submit".
- This information will be saved to the database and users who login or refresh their screens will see these children as checked in. It will also synchronize in real time with the web app.

Note: If you are attempting to serve a meal and there are no options under the "Meal" drop down menu, you are serving a meal outside of the scheduled meal time. **Note:** if a child has been checked in on another roster, you will see the check box already filled for their name. My Food Program prevents users from checking in the same participant twice for the same meal.

Meal Count: Taking Meal Counts by Name using Paper

Attendance and meal counts can be recorded three ways:

- Web app through any web browser, such as Chrome, Explorer, Edge or Safari.
- Mobile app available through the Google Play or iTunes.
- Paper, which must then be manually entered using the web app.

There are two ways to take meal counts:

1. **Meal count by name (roster-based):** this means that you are selecting the names of individual children for each meal.
2. **Headcount:** this means that you are just counting the number of children present for a meal and entering that number. You are not tracking which children are attending each specific meal.

To record meal counts by name on paper:

- Print the meal count and attendance sheets from the web app by clicking on “Enter Attendance & Meal Count from Paper” on the main dashboard.
- Select the date and roster for which you would like to print the paper forms and click “Submit”.

Enter Attendance & Meal Count from Paper

Roster:

- You will now see a list of children that are assigned to that roster along with a list of the meals served. Scroll to the bottom of the page and click the green “Print” button on the bottom-left corner.
- My Food Program will generate a PDF document to print. You may need to adjust your printer setting, especially the “fit to page” to ensure that the page prints correctly. We also recommend turning off headers and footers during printing. **Note: if you would like to print paper forms for all rosters simultaneously, this can be done in the “Reports” section. The paper forms generated in reports have a slightly different appearance than the paper forms generated using the method outlined above.**

- Record meal counts on the paper forms by checking the box for each meal that each child ate on each day.
- At the end of the week, gather the paper forms and return to the screen from which you printed the form (i.e. go to “Enter Attendance & Meal Count from Paper” and select the date and roster that matches the completed paper form).
- Input the meal counts on the screen that correspond to those recorded on the paper form.
- Click “Save”.
- You should retain the original paper forms after entering the information into My Food Program since the paper forms were the ones recorded at point-of-service.

Meal Count:

Taking Headcount Meal Counts using Web App

Attendance and meal counts can be recorded three ways:

- Web app through any web browser, such as Chrome, Explorer, Edge or Safari.
- Mobile app available through the Google Play or iTunes.
- Paper, which must then be manually entered using the web app.

There are two ways to take meal counts:

1. **Meal count by name (roster-based):** this means that you are selecting the names of individual children for each meal.
2. **Headcount:** this means that you are just counting the number of children present for a meal and entering that number. You are not tracking which children are attending each specific meal.

To take a headcount meal count:

- Click on “Meal Count” on the main dashboard.
- Select the date, meal and roster for which you want to take a count.
- Use the up/down arrows or type a number into the box.
- Click “Save” to record the meal counts.

Note: headcount meal counts from other users will appear on the upper-left corner. If two users enter counts for the same meal on the same day, they will add together. If using headcount meal counts, we strongly recommend having only one person assigned to entering meal counts. Multiple users are less of a problem with meal count by name since the system prevents a child from being checked in twice for the same meal. Since headcount meal counts do not associate meal counts with particular children, it can cause confusion if multiple people enter counts.

Meal Count: Taking Headcount Meal Counts using Mobile App

Attendance and meal counts can be recorded three ways:

- Web app through any web browser, such as Chrome, Explorer, Edge or Safari.
- Mobile app available through the Google Play or iTunes.
- Paper, which must then be manually entered using the web app.

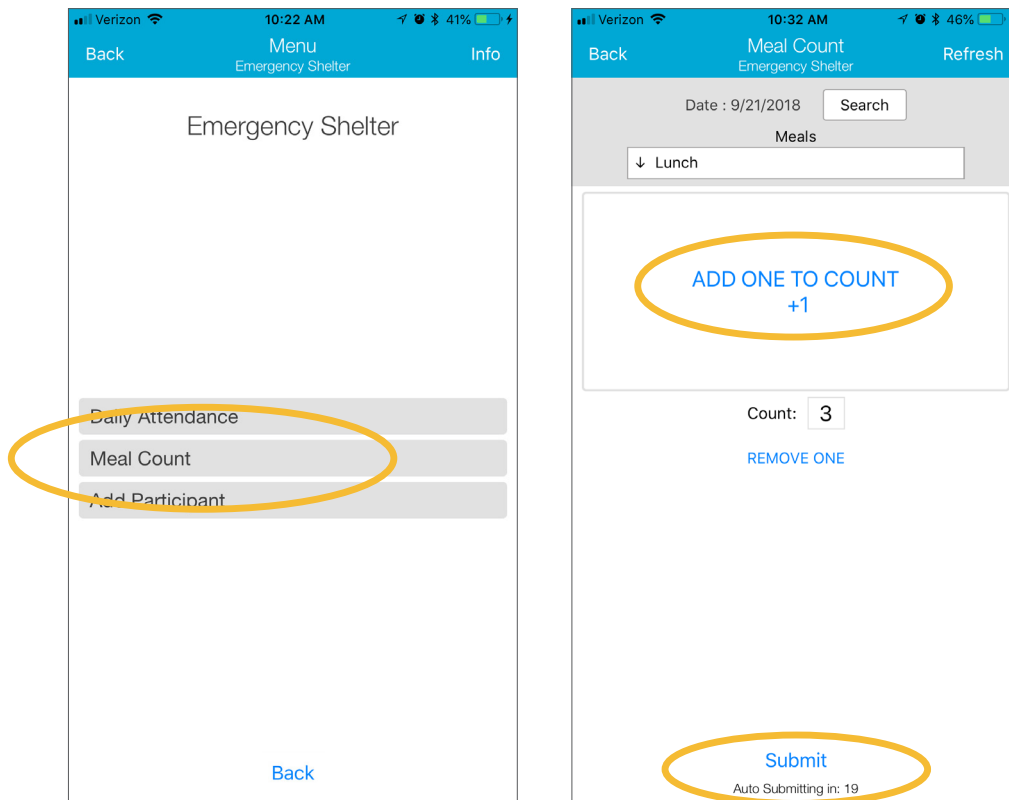

There are two ways to take meal counts:

1. **Meal count by name (roster-based):** this means that you are selecting the names of individual children for each meal.
2. **Headcount:** this means that you are just counting the number of children present for a meal and entering that number. You are not tracking which children are attending each specific meal.

To take headcount meal count using mobile app:

- Click on the “Meal Count” button and select the correct roster and meal.
- Click the “Add One to Count” button until you reach the number of children eating the meals.
- Click “Submit”.
- This information will be saved to the database and users who login or refresh their screens will see these children as checked in. It will also synchronize in real time with the web app.

Note: If you are attempting to serve a meal and there are no options under the “Meal” drop down menu, you are serving a meal outside of the scheduled meal time.

Meal Count:

Taking Headcount Meal Counts using Paper

Attendance and meal counts can be recorded three ways:

- Record meal counts on the paper forms by writing the total number of children eating each meal each day.
- At the end of the week, gather the paper forms and return to the screen from which you printed the form (i.e. go to “Enter Attendance & Meal Count from Paper” and select the date and roster that matches the completed paper form).
- Input the meal counts on the screen that correspond to those recorded on the paper form.
- Click “Save”.
- You should retain the original paper forms after entering the information into My Food Program since the paper forms were the ones recorded at point-of-service.

Meal Count: Adding a Participant from the Meal Count Page

Participants are normally added from the “Participants & Rosters” section. Adding a participant from the meal count screen is a shortcut that can be used by teachers if a new child arrives at the center and should be included in a meal count, but the site manager/director has not added them to My Food Program yet.

Adding a participant using this method has two disadvantages to be aware of:

1. Only first name, last name, birthdate and ethnicity is recorded for a child. The site manager/director should go back and enter comprehensive information for the child based on the enrollment form.
2. It is tempting for teachers to misuse this function if a child is not found on the roster they are looking at. For example, if a child is transitioning from the infant room to the toddler room, but is only listed on the infant roster, the toddler teacher may use this feature to create a duplicate participant instead of either asking the site director/manager to add the child to the toddler roster or checking the child in on the infant roster.

To add a participant from the meal count page:

- Click on “Meal Count” on the main dashboard.
- Click on the date and meal for which you are taking a meal count.
- Click on the blue “Add Participant” button in the lower-right corner.
- Complete the information: first name, last name, birthdate, age range, gender and ethnicity.
- Click “Save” and the participant will be added to the current roster and checked in for the meal.

A screenshot of a web form titled "New Participant". The form contains several input fields: "First Name", "Last Name", and "Birthdate" are text boxes; "Age Range", "Gender", and "Ethnicity" are dropdown menus. A large yellow circle highlights the "First Name", "Last Name", "Birthdate", "Age Range", "Gender", and "Ethnicity" fields. A smaller yellow circle highlights a green "Save" button located in the bottom right corner of the form.

Meal counts can be edited in the past for months for which a claim has not been processed by users with the following permissions:

1. Sponsor Administrators
2. Site Manager/Director (if allowed by sponsor)

No users of any permission level can edit a meal count in a month for which a claim has been processed. In order to edit meal counts if a claim has been processed, the claim must be rolled back.

To edit a meal count:

- Click on “Meal Count” on the main dashboard.
- Click on the date and meal for which you need to edit a meal count.
- Click in additional children or “uncheck” children entered in error. **Note: if you “uncheck” a child for a meal, you may also have to “uncheck” them for attendance depending on your site configuration.** This extra step is necessary for sites that use meal counts to generate attendance (i.e. have the box “Attendance records kept outside of My Food Program” checked in Site Details).
- Click “Save”.

*Participants
& Rosters*

Rosters are simply lists of children. **Children can be on more than one roster and My Food Program will prevent double counting.** Different centers use rosters in different ways. Here are some examples:

1. The most common way to use rosters is to have them be a list of children by classroom. For example: infant, toddler, preschool and school-age.
2. Creating lists based on schedules. For example: a roster of children who attend on Monday, Wednesday, and Friday and another roster of children who attend on Tuesday and Thursday.
3. Sorting children according to the shifts run by the center. For example: a weekday roster and a weekend roster.

There is no limit to the number of rosters you can create or the number of children who can be on a roster.

To create a new roster:

- Click on “Participants & Rosters” on the main dashboard.
- Click on the blue “New Roster” button in the upper-right.
- Give your roster a name and description. Click the box that says “Infant Roster” for any rosters that are for infants. Checking this box will allow teachers to take meal counts at any time during the day (although never before a meal has occurred). This flexibility is allowed because centers are to follow infant feeding preferences rather than strict meal times.
- Click “Save”.
- Your new roster is now available.

Name	Guardian	Birthdate	Current Rosters	All Rosters	Status
------	----------	-----------	-----------------	-------------	--------

Rosters can always be renamed by clicking on the name of the roster, typing the new name and clicking “Save”.

Participants & Rosters: Deleting and Deactivating Rosters

Rosters can only be deleted if no participant has ever been checked in for attendance or a meal on that roster. This restriction is in place because there are reports that can be run by roster and deleting a roster would corrupt those reports.

To delete a roster:

- Click on “Participants & Rosters” on the main dashboard.
- Click on the red “Delete Roster” button.
- You will get a warning message. Click “OK” to continue.
- The roster is now deleted.

If you have a roster that you cannot delete, you can make it inactive.

To make a roster inactive:

- Click on “Participants & Rosters” on the main dashboard.
- Click on the red “Make Inactive” button.
- The roster is now inactive and will not appear on attendance or meal count screens. However, the roster will still be available on historical reports.

To reactivate a roster:

- Click on “Participants & Rosters” on the main dashboard.
- Click on the blue button “Show Inactive” in the upper-right corner.
- Any rosters that were inactive will appear with a green button that says “Make Active”. Click on the green “Make Active” button to have a roster appear on the attendance and meal count screens again.

The children that are assigned to each roster can be managed individually on each participant's information page. If you need to move a lot of children and don't wish to click them individually, you can manage roster assignments easily on the roster page.

To manage roster assignments for multiple participants:

- Click on "Participants & Rosters" on the main dashboard.
- Click on the name of the roster that contains the children you need to manage.
- On the roster page, you will see the following columns:
 - Name
 - Guardian
 - Birthdate
 - Current Rosters
 - All Rosters
 - Status
- Use the drop-down menus in the "All Rosters" column to change roster assignments of multiple participants. For example, when a group of preschoolers enroll in school and are promoted to the school-age roster.
- Use the drop-down menus in the "Status" column to change the status of multiple participants quickly. For example, if you have a roster of children who only attend during the summer and now they will be inactive.
- Click "Save" and all changes will be applied to all the children with altered roster assignments or status.

Name	Guardian	Birthdate	Current Rosters	All Rosters	Status
James Mitchell	Michael Mitchell	09/27/2010	Room 2	Room 2	Active
Amanda Parker	Patricia Parker	11/01/2014	Room 2	Room 2	Active
Patricia Rodriguez	Maria Rodriguez	01/02/2015	Room 2	Room 2	Active
Ruby Smith	Janet Walker	08/03/2010	Room 2	Room 2	Active

When a new family enrolls in a site, a new household should be created. Remember that all children in a household are linked to a single income form, parent/guardian and household address.

To add a new household:

- Click on “Participants & Rosters” on the main dashboard.
- Click on the blue “Add New Household” button.
- Enter the household address and click “Save”.
- Click the blue “Add Guardian” button.
- Complete the first name (required), last name (required), phone number and email for the parent/guardian. If this is the primary parent/guardian, then click the box to indicate this. Click “Save”.

A screenshot of a web form titled "Guardian". The form contains several input fields: "First Name", "Middle Name", "Last Name", "Primary Phone", "Secondary Phone", and "Email Address". Below these fields is a checkbox labeled "Primary Guardian for Household". A yellow circle highlights the "First Name" and "Last Name" fields. Another yellow circle highlights the "Save" button, which is a green rectangle with white text.

- The household is now ready to be completed with the children’s’ information and the household income form. Please see separate instructions for those tasks.

Participants & Rosters: Households & Participants: Adding Children: Uploading Participants

If you have a new site and a list of participants in an Excel spreadsheet, you can use the upload feature instead of creating each child individually.

To upload participants to My Food Program:

- Download the correct template below. There are two versions.
 - The [first version](#) is best if you have children sorted with first name and last name in separate columns
 - Use the [second version](#) if you have the children's names entered as "last name, first name".
- Copy the information from your spreadsheet into the template.
- Save the template. Be sure to keep the original file extension ".csv". Excel files like ".xlsx" will not work.
- Log into My Food Program and click on "Participants & Rosters" on the main dashboard.
- Click on the green "Upload Participants" button.
- Use the file explorer to locate the file with participant information and click "Open".
- To import all participants on your spreadsheet, click the checkbox next to the word "Participant" in the upper-left corner. This will select all participants on the list.
- If any participants cannot be imported, there will be an error message on the far right corner. You can either proceed with the upload and add those participants manually or cancel the upload and fix the errors in the spreadsheet.
- Once you have selected all the participants you wish to import, scroll to the bottom of the page and click "Save".
- Your participants are now entered into My Food Program. Note: the import feature creates each child in an individual household. If you wish to group children into households, you will need to use the function of changing households.

<input checked="" type="checkbox"/> Participant	Guardian/Roster	Household	Schedule	Errors
<input checked="" type="checkbox"/> Melania Daniels Birthdate: 01/01/2014 Active Start: 03/03/2015	Melania Daniels (651) 555-1234	1111 Main Street S. Minneapolis MN Start: 05/05/2013 Expire: 03/31/2016	Monday: 6:00 AM - 9:00 PM Tuesday: 6:00 AM - 9:00 PM Wednesday: 6:00 AM - 9:00 PM Thursday: 6:00 AM - 9:00 PM Friday: 6:00 AM - 9:00 PM Saturday: 6:00 AM - 9:00 PM Sunday: 6:00 AM - 9:00 PM	
<input type="checkbox"/> John James Smith Birthdate: 02/02/2013 Inactive Start: 02/14/2016 Withdrawn: 03/31/2016	James Smith 808-555-1234	111 Main St Merced CA 12345 Tier: Tier I Start: 05/05/2014 Expire: 05/31/2015	Monday: 7:00 AM - 12:00 PM Saturday: 9:00 AM - 3:00 PM	Participant with this name and birthdate already exists
<input checked="" type="checkbox"/> April Garcia Birthdate: 11/09/2002 Hispanic or Latino Active Start: 01/11/2016	Jerry Garcia 208-222-1234	222 Main St Hanford CA 80808 Tier: Tier I Start: 05/05/2015 Expire: 05/31/2016	Monday: 3:00 AM - 7:00 PM Tuesday: 3:00 AM - 7:00 PM Saturday: 9:00 AM - 3:00 PM	

Sometimes you need to add a new child to an existing household. The most common scenario for this function is when an enrolled family has a new child and enrolls the infant in the center.

To add a new child to an existing household:

- Click on “Participants & Rosters” on the main dashboard
- Locate the existing household by either:
 - Clicking on the name of the Parent/Guardian for the household from the main participant page
 - OR
 - Clicking on the orange “Add to Existing Household” button from the main participant page.
- Click the blue “Add Participant” button
- Complete the required fields and click “Save”.

Before adding a new children, ensure that you are not creating a duplicate. My Food Program will prevent the creation of a child with the same first name, last name and date of birth of an existing child, but just one typo and a duplicate child could be created.

To add a new participant:

- Click on “Participants & Rosters” on the main dashboard.
- Either create a new household (see separate instructions) or locate the existing household to which you need to add a child (see separate instructions).
- From the Household Info page, click the blue “Add Participant” button.
- Complete the fields as described:
 - **First name (required)**
 - Middle name (optional)
 - **Last name (required)**
 - Birthdate estimated: this checkbox should be used if you are adding a child and you have not verified their exact date of birth. Avoid this situation whenever possible as incorrect birthdates can create problems with claims processing.
 - **Birthdate (required)**
 - Is enrolled or attends school (optional): you should check this box if it is a school age child and your state has school enrollment status rather than calendar age as a licensing age range. See separate instructions for further explanation of this feature.
 - **Start Date (required)**: this is the date that the child should begin being claimed for CACFP meals. All meals prior to this date will be disallowed during claims processing.
 - Date Withdrawn (optional): this is for your recordkeeping only. Active children checked in for meals/ snacks after this date will not be disallowed solely because of a withdraw date.
 - Gender (optional): for your recordkeeping.
 - **Status (required, but no change required if you accept default to “Pending”)**: A status of Active, Pending or Incomplete are for your recordkeeping purposes. A status of Inactive will remove the child from lists of meal counts and attendance. See separate instructions for further explanation of this feature.
 - Allergies (optional): you can record any allergies or special dietary needs in this text box. Any text you enter here will show up as a pop-up alert on the mobile app for the roster to which this child is assigned.
 - **Roster Assignment (required, but will default to Unassigned if you do nothing)**: see separate instructions about how to create and manage rosters. Remember that a child can be added to more than one roster and My Food Program will prevent any double-counting.
 - Racial Identity (optional): you should complete this information based off of income or enrollment information if you wish to use My Food Program for tracking race/ethnicity data for reporting purposes.
 - Ethnicity (optional): you should complete this information based off of income or enrollment information if you wish to use My Food Program for tracking race/ethnicity data for reporting purposes.

- CACFP (optional): this box is checked by default. Having this box checked means that the child is enrolled in CACFP and their meal and snack counts should be included in a claim for reimbursement. If this box is unchecked, the meals and snacks for this child will not be included in a claim. See separate instructions for further explanation of this feature.
- Received Subsidized Care (optional): this box is unchecked by default. If your state agency requires that you track both the A-Free/B-Reduced/C-Paid status based on household income eligibility forms AND the percentage of children that are eligible for subsidized care (child care assistance), then you should use this feature. If you are only required to track A-Free/B-Reduced/C-Paid status, then you can ignore this box.
- After School Program (ARAM) (Optional): this box is unchecked by default. This does not apply to emergency shelters.
- Participant Notes (optional): for your recordkeeping.
- External Group ID (optional): use this feature if you wish to assign a group ID to your participants. The group ID will appear on the Participant Report.
- External Site ID (optional): use this feature if you wish to assign an ID to each participant for tracking. The site ID will appear on the Participant Report.
- Participant Schedule (optional): use information from the enrollment form to complete this section. See separate instructions for further explanation of this feature.
- Enrollment (optional): enter the effective and expiration dates of child enrollment forms here. See separate instructions for further explanation of this feature.
- Infant Meal Notification (optional): enter the date, and upload a scan, of a form that tracks whether parents or the center are going to provide food and formula. See separate instructions for further explanation of this feature.
- Special Diet (optional): enter the date, summary, and upload a scan of any forms documenting special dietary needs. Entering a special diet statement here will automatically send an email to the sponsor admin to alert them that a form has been uploaded and may need approval. See separate instructions for further explanation of this feature.
- Click “Save”. You will get an error message if any required fields are missing or you are attempting to create a duplicate.

The “Is enrolled of attending school?” checkbox on the Participant Info page is important if two conditions are met:

1. You are using My Food Program to check that meal counts do not exceed licensed capacity (in “Site Details” the feature “Licensing Age Range Errors” is set to “Error” and not “Ignore”).
2. The state agency that sets licensing age ranges for licensed child care facilities uses school enrollment as part of the definition of an age range instead of just calendar age. For example, in some states “school age” means a child who is 5 years or older. In other states, the term “school age” means a child who is enrolled in school, which may or may not include a child who is 5 or 6 years old.

Before you designate a child as “Is enrolled or attending school?”, ensure that your licensing age ranges are set up correctly. Licensing age ranges are configured at the sponsor level. You can create overlapping age ranges only if one is designated as a school age range and the other is not. For example, you may have a “preschool” age range that includes 3-6 year olds and a “school age” age range that include 5-12 year olds. Whether a child who is 5 years old or 6 years old is counted in the “preschool” age range or the “school age” range depends on whether the “Is enrolled or attending school?” box is checked. The table below summarizes what will happen with this licensing age range configuration:

If the box that says “Is enrolled or attending school?” is CHECKED

4 Years Old

Will generate error “Participant Outside of Age Range”.

5 Years Old

Counts in “School Age”

6 Years Old

Counts in “School Age”

7 Years Old or Older

Counts in “School Age”

If the box that says “Is enrolled or attending school?” is UNCHECKED

4 Years Old

Counts in “Preschool”

5 Years Old

Counts in “Preschool”

6 Years Old

Counts in “Preschool”

7 Years Old or Older

Will generate error “Participant Outside of Age Range”.

There are four potential participant statuses. **For the purposes of My Food Program, three of them are identical and are used only for your recordkeeping purposes.**

The following three participant statuses will include children on attendance and meal count lists:

- Active
- Pending
- Incomplete

Active

Many sponsors use “Active” to mean that all the required CACFP paperwork has been turned in. For example, an enrollment form, an income form, an infant meal notification letter and special dietary statement (if applicable).

Pending

Many sponsors use “Pending” to mean that a child has been added to My Food Program, but they have not received any paperwork.

Incomplete

The “Incomplete” status is most often used if some of the required CACFP paperwork has been submitted, but some is still missing. For example, an enrollment form has been submitted, but it was missing a signature and has been returned to the center for proper completion.

Inactive

The status of “Inactive” will remove a child from appearing on attendance and meal count lists.

Rosters are simply lists of children. Children can be on more than one roster and My Food Program will prevent double counting.

To assign a child to a roster or rosters:

- Click on “Participants & Rosters” on the main dashboard.
- Click on the name of the child.
- Scroll down to Roster Assignment.
- Click on the name(s) of the roster to which you want the child added.
- Click “Save”.

The screenshot shows a dropdown menu for 'Roster Assignment' with the following options:

- [Select all]
- Auditorium
- School Age
- Toddler
- Unassigned

How My Food Program prevents children on multiple rosters from being double-counted:

- **Web App:** If a child is on multiple rosters and has already been checked in on a meal on one roster, you will get a prompt that prevents you from checking them in for the same meal on a different roster:

The screenshot shows a form with the following fields:

- Date: 07/29/2018
- Roster: Toddler
- Meal: Breakfast
- Current Total: 0

Name	Ate	Ate on Roster
Jane Doe	<input checked="" type="checkbox"/>	Preschool
Susie Doe	<input type="checkbox"/>	
Roger Jones	<input type="checkbox"/>	
Gavin Parker	<input type="checkbox"/>	
Nia Parker	<input type="checkbox"/>	
Jane Smith	<input type="checkbox"/>	

- **Mobile App:** If a child has already been checked in on another roster, their name is already marked.
- **Paper:** When transferring paper attendance and meal counts to the website, My Food Program will alert user that child was already checked in.

There may be instances in which you want to take meal counts for a participant, but do not want their counts included in a claim. The most common reason for using the feature is a child who brings their own meals. Another use of this feature is to include teachers in meal counts to properly account for the expense of feeding staff without including them in a claim.

On each participant page is a box that says “CACFP”. **This box is checked by default when new participants are created.**

 CACFP

If the box that says “CACFP” remains CHECKED
then the meal counts will be included in claims.

If the box that says “CACFP” is UNCHECKED
then meal counts for this participant will NOT be included in claims.

When you have a mix of CACFP and non-CACFP participants, reports are more complicated. For many reports, you have a choice of “CACFP Meals Only” or “All.”

- CACFP Meal Only reports will include only participants with the CACFP box marked. It will exclude any participants with the CACFP box unchecked.
- All report will include both CACFP and non-CACFP participants.

Take care when running the following reports:

- Participant Report
- Ethnicity/Racial Report
- Disallowed Meals Report
- Meal Count Summary
- Meal Count by Roster
- Meal Count by Name
- Meal Count by Roster Summary
- Five Day Meal Count Report
- Total Meal Count Report
- Claim Summary Report

Schedules are optional to include in My Food Program. However, you may find them helpful to include for the following reasons:

- Schedules are used to create estimated counts for food production.
- Including the child's schedule in My Food Program may meet the requirement that sponsors maintain documentation of the usual days and hours in care and typical meals eaten.

To set a child's schedule:

- Click on "Participants & Rosters" on the main dashboard.
- Click on the name of the child.
- Click on the orange "Edit Schedule" button.
- Enter the start and end time for when the child is in care.
- Click the days of the week and typical meals eaten.
- If a child leaves during the day and then returns (for example, is enrolled in before-school care and after-school care) or their schedule varies according to the day of the week, click the blue "Add" button to create another set of in/out times and meals.
- Click "Save".

Participant Schedule + Add

Start Time	End Time	Days Of Week	Meals
<input type="text" value="07:00 am"/>	<input type="text" value="04:00 pm"/>	<input type="checkbox"/> All Days <input type="checkbox"/> Sunday <input checked="" type="checkbox"/> Monday <input checked="" type="checkbox"/> Tuesday <input checked="" type="checkbox"/> Wednesday <input checked="" type="checkbox"/> Thursday <input checked="" type="checkbox"/> Friday <input type="checkbox"/> Saturday	<input type="checkbox"/> All Meals <input type="checkbox"/> Early Snack <input checked="" type="checkbox"/> Breakfast <input type="checkbox"/> AM Snack <input checked="" type="checkbox"/> Lunch <input checked="" type="checkbox"/> PM Snack <input type="checkbox"/> Supper <input type="checkbox"/> Evening Snack

Since siblings often maintain the same schedule, there is a short-cut that allows users to copy the schedule of a sibling.

To copy a schedule from a sibling:

- Click on “Participants & Rosters” on the main dashboard.
- Click on the name of the child.
- Scroll down to Participant Schedule.
- Select the name of the sibling from the drop-down menu.
- The schedule will then be populated. If the sibling did not have any schedule information, then nothing will be copied.
- Click “Save”.

Participants & Rosters: Households & Participants: Adding Children: Infant Meal Notification Forms

Some states require that sponsors collect information from the parents of infants regarding who is providing formula and who is providing solid food. Note: CACFP regulations allow a parent to provide only one component of a meal. If a parent is providing both formula and food for an infant, they should not be included in meal counts submitted for reimbursement. If you wish to take meal counts for this infant as usual, the “CACFP” box should be unchecked. This will prevent the meals from being claimed and will not require special training for staff about which infants to include or exclude from meal counts.

To enter infant meal notification forms:

- Click on “Participants & Rosters” on the main dashboard.
- Click on the name of the Participant.
- Scroll down to Infant Meal Notification and click on the blue “Add” button.
- Enter the notification date and source of formula and food. You may also upload a scan or photograph of the form.
- Click “Save”.

My Food Program does not have the ability to disallow meals for infants who are missing an infant meal notification letter. If your state requires that those meals be disallowed, we suggest unchecking the “CACFP” box for the infant participant missing the required letter. This will allow you to continue entering meal counts for the participant and include them in your monthly claiming percentage but the meal counts will not be included in the claim.

A screenshot of the "Infant Meal Notification" form. The form is titled "Infant Meal Notification" and contains several input fields and a "Save" button. The fields are: "Notification Date" (08/05/2018), "Formula or Breast Milk" (Center Formula), "Parent Brand of Formula" (empty), and "Solid Food Source" (Parent). There is a checkbox for "Form Stored Elsewhere" which is unchecked. Below the fields is an "Upload Form" section with a "Browse..." button. A green "Save" button is located at the bottom right of the form. A yellow circle highlights the "Save" button, and another yellow circle highlights the "Notification Date", "Formula or Breast Milk", "Parent Brand of Formula", and "Solid Food Source" fields.

Documentation of special dietary needs can be tracked in My Food Program.

To add a special diet for a participant:

- Click on “Participants & Rosters” on the main dashboard.
- Click on the name of the child.
- Scroll down to “Special Diet” and click the blue “Add” button.
- Enter the fields:
 - Start date: effective date of the special dietary accomodation
 - End date: optional. Leave blank if this is an on-going dietary need
 - Disability checkbox: check if the special dietary need is related to a medical disability. This box being unchecked indicates that the dietary need is not related to a medical disability.
 - Reason: complete the reason for the special dietary need. For example, “Celiac Disease” or “Lactose Intolerance”.
 - Food Omitted: list the foods that the recognized medical authority has instructed the center to avoid serving the child
 - Food Substituted: list the foods that will be served in lieu of the omitted foods. Note: some state agencies require that foods substitutions be documented for every meal. In this case, you would want to add the additional food to your menus. If your state agency allows you to document an on-going substitution (for example, “every time strawberries are served, this child is offered peaches” you can designate that here.
- Upload a scan or photograph of the form, if desired.
- Click “Save”.

A screenshot of the "Special Diet Form" interface. The form is titled "Special Diet Form" and contains several input fields: "Start Date", "End Date", "Disability" (with a checkbox), "Reason", "Food Omitted", and "Food Substituted". Below these fields is an "Upload Form" section with a "Browse..." button. A large yellow circle highlights the "Start Date", "End Date", "Disability", "Reason", "Food Omitted", and "Food Substituted" fields. A smaller yellow circle highlights the "Save" button in the bottom right corner.

Note: when a special diet form is added, My Food Program automatically sends an email to the main sponsor contact to alert them. Sponsors should review the special diet form and provide technical assistance to the site regarding implementation.

Participants & Rosters: Households & Participants: Deleting Children

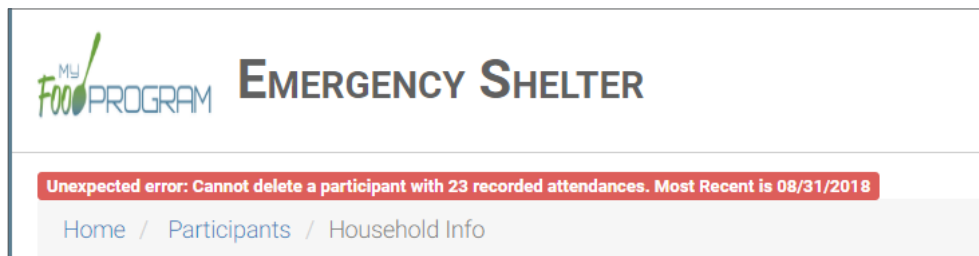

My Food Program only allows you to delete children that **have not been entered in for any attendance or meal counts.**

Alternatives to deleting a child include:

- Merging the child if you have created a duplicate.
- Setting the child's status to "inactive" in order to remove their name from attendance and meal count rosters.

To delete a participant:

- Click on "Participants & Rosters" on the main dashboard.
- Click on the name of the primary parent/guardian to bring up the Household Info page. (Alternatively, click on the child's name and then click on "Household" on the bread crumbs menu in the upper-left corner.)
- Click on the red "Delete Participant" button.
- If no attendance or meal count records exist for this child, you will get a message that says "Participant Successfully Deleted". If the child has any attendance or meal count information, you will get a red error that says "Unexpected error: Cannot delete a participant with XX recorded attendances. Most Recent is MM/DD/YYYY."

My Food Program prevents users from creating children with the exact same name and birthdate. However, if a duplicate child is created in error, it is possible to merge them together **As long as neither child has been included in a claim**. If either the “original” child or the duplicate child have been included in a claim, then a merge is not possible. In that instance, we recommend contacting My Food Program customer support for additional assistance. We can assist with manually moving the meal counts from the duplicate child to the original child and then deleting the duplicate. If both the original child and duplicate child have been included in a claim, then the only way to resolve the situation is to roll-back the claim, correct the meal counts, and then re-process the claim.

To merge participants:

- Click on “Participants & Rosters” on the main dashboard.
- Click on the name of the primary parent/guardian to bring up the Household Info page. (Alternatively, click on the child’s name and then click on “Household” on the bread crumbs menu in the upper-left corner.)
- Click on the orange “Merge with Participant” button.
- Input the information for the duplicate child in the “Participant to Delete” section and click the blue “Search” button.
- Select the child you wish to delete. Click the green “Merge” button.
- If the merge is successful, you will get a blue confirmation message at the top. If either the “Participant to Save” or “Participant to Delete” have been included in a claim, you will get a red error message and the merge will not proceed.

Home / Participants / Household / Merge Participant

Merge Participant

Participant To Save: Susie Doe
Guardian: John Doe
Household: 123 Main Street Minneapolis MN 55555

Participant To Delete

Last Name: Doe

Search Merge

Note: when you merge participants, they are added to the household of the “Participant to Save” and the Participant Information (such as birthdate, roster assignment, enrollment form dates, etc.) is the same as the “Participant to Save”.

Participants & Rosters: Households & Participants: Moving Children to Different Households

Children can be moved to different households at any time.

Note: if a household does not have any children listed in it, it will be automatically deleted. If you are moving the only child in a household to another household, take care that this action is desired as the household will be deleted after the move.

To move a child to a different household:

- Click on “Participants & Rosters” on the main dashboard.
- Click on the name of the primary parent/guardian to bring up the Household Info page. (Alternatively, click on the child’s name and then click on “Household” on the bread crumbs menu in the upper-left corner.)
- Click on the orange “Change Household” button to bring up a list of households.
- Select the household that you want to move the child to, scroll down to the bottom and click “Save”.

Change Household

Participant: Roger Daniels
Current Household: 1111 Main Street S. Minneapolis MN

Select New Household

Select	Guardian	Address

<input type="radio"/>	James Smith	111 Main St Merced CA 12345

Participants & Rosters: Printing List of Active Children

Lists of children can be printed from multiple places, including on each roster page or from the main participant page.

To print a list of active children as a PDF:

- Click on “Participants & Rosters” on the main dashboard.
- Click the green “Print Participant List” button.
- Save or print the generated PDF.
- Fields included on the form are:
 - Participant Name
 - DOB
 - Roster Assignment
 - Parent/Guardian

MY Foo PROGRAM Emergency Shelter		Participant List	
Created: 09/21/2018			
Participant Name	Birthdate	Rosters	Guardian Name
Jones, Joshua	02/22/2017	Room 1	Andrea Morris
Mitchell, James	09/27/2010	Room 2	Michael Mitchell
Parker, Amanda	11/01/2014	Room 2	Patricia Parker
Parker, Virginia	02/05/2011	Room 1	Patricia Parker
Ramirez, Philip	10/19/2014	Room 1	Walter Watson
Rodriguez, Patricia	01/02/2015	Room 2	Maria Rodriguez
Smith, Ruby	08/03/2010	Room 2	Janet Walker
Wilson, Jerry	10/13/2013	Room 1	Walter Watson

Participants & Rosters: Using Participant Search Function

On the main participant screen, you can use the search function to quickly find children.

Below are the options for using the participant search function:

- Participant, Roster, Birthdate, Guardian & City are all fields that can be searched by typing a word or words. **Note that an exact match is required.** We recommend you use the shortest string of characters as possible in order to broaden search results.
- Status can be filtered by the four available statuses (Active, Inactive, Incomplete, Pending).

Participants							Download Participants	Add to Existing Household	Add New Household	Print Participant List
Participant	Roster	Birthdate	Guardian	City	Status					
Elli'onna Brown	Unassigned	06/11/2015	Gloria Brown	Primos	Active					
Zay'ion Brown	Unassigned	02/28/2010	Gloria Brown	Primos	Active					

Staff

When you create a new site, you also need to create new users who can access the site. Some centers choose to have each staff person be assigned their own username and password. The main advantage to individualized login information is that you can track who is entering meal counts (or forgetting to!). On the downside, it can be difficult to manage if people routinely forget their login credentials.

To create a new site-level user:

- Click on “Staff” on the main dashboard.
- Click on the blue “Add” button in the upper-right corner.
- Enter the fields:
 - **Name (required)**
 - **User Name (required)**: this will be part of their login credentials.
 - **Password (required)**: a minimum of 12 characters. There is no requirement for upper-case, lower-case, numbers or special characters.
 - **Confirm Password (required)**: retype password.
 - Email Address (optional)
 - Phone Number (optional)
 - Start Date (optional)
 - End Date (optional)
 - **Status (required)**: a status of “active” will allow the user to login. A status of “inactive” will prevent a login
 - Hourly Rate (optional): if you are using My Food Program to track payroll expenses for the purpose of demonstrating a nonprofit meal service, enter an hourly rate here.
 - Primary Contact for Site (optional)
 - **Roles (required)**: select one of three roles. See additional materials for further explanation. Manager/ director can access all site information, Staff can access meal counts, participants & rosters and record hours. Kitchen staff can access menus, meal counts, participants & rosters and record hours.
 - Notes (optional): for your recordkeeping.
- Click “Save”.

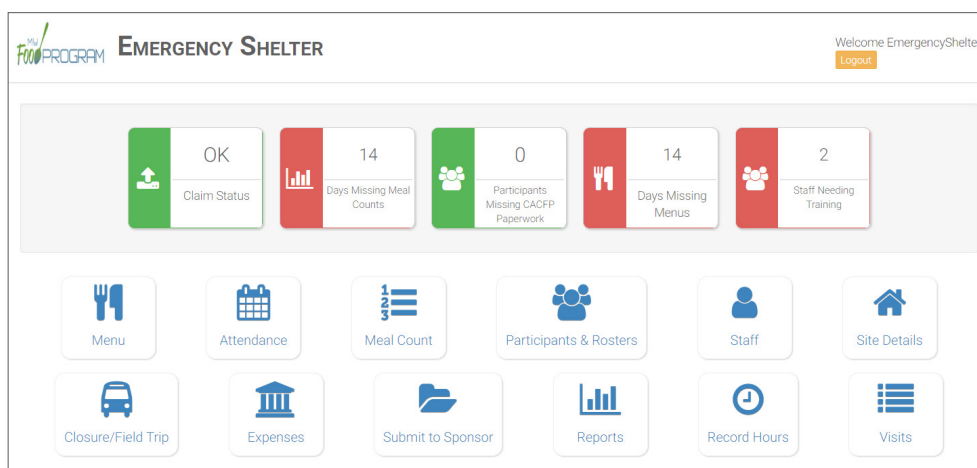

The screenshot shows a form titled "User Details" with the following fields and options:

- Name: [Text Input]
- User Name: [Text Input]
- Password: [Text Input]
- Confirm Password: [Text Input]
- Email Address: [Text Input]
- Phone Number: [Text Input]
- Start Date: [Text Input]
- End Date: [Text Input]
- Status: [Dropdown Menu] (Current selection: Active)
- Hourly Rate: [Text Input]
- Primary Contact for Site:
- Roles: Site Manager/Director, Staff, Kitchen Staff
- Notes: [Text Input]

Site-level users can be assigned one of three roles:

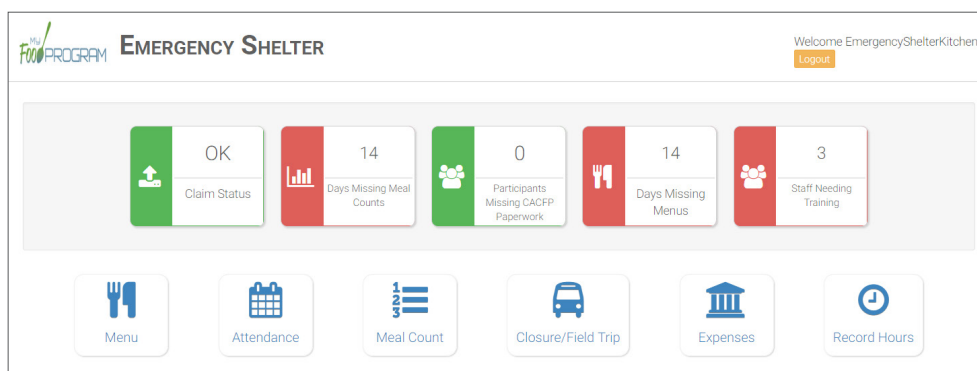

- Site Manager/Director
- Staff
- Kitchen Staff

The dashboard for a Site Manager/Director looks like this:

Site Manager/Directors have full access to all features.

The dashboard for a Kitchen Staff looks like this:

The dashboard for a Staff looks like this:

Refer to the permissions matrix for a detailed list of the functionality for each user type.

Annual staff training on Civil Rights and Food Program duties and responsibilities are a required part of participation in the CACFP. 7 CFR 226.16 states “At a minimum, such training must include instruction, appropriate to the level of staff experience and duties, on the Program’s meal patterns, meal counts, claims submission and review procedures, recordkeeping requirements, and reimbursement system.”

To track documentation of staff training:

- Click on “Staff” on the main dashboard.
- Click on the name of the staff person who participated in training.
- Scroll to the bottom and click the blue “Add” button in the Training section.
- Enter the fields as follows:
 - **Training Date (required):** use the date picker or type in the date on which the training occurred.
 - **Training Type (required):** select Civil Rights Training or Other.
 - **Description** (optional): for your recordkeeping.
 - **Upload Training:** you may wish to upload a copy of the training agenda, training materials and/or a signed training roster.
- Click “Save”.

The screenshot shows a form titled "Staff Training" with the following fields and controls:

- Training Date:** A text input field.
- Training Type:** A dropdown menu with "Select" and a downward arrow.
- Description:** A text input field.
- Upload Training:** A button labeled "Browse..." next to a greyed-out area.

Staff: Add Existing Staff Members to a Site

One staff person can be assigned to more than one site. The most common scenario for this configuration is a caterer that provides meals for multiple sites and needs access to My Food Program in order to complete food production records.

To add an existing staff member to a new site:

- On the site on which the staff person already has a username, click on “Staff” on the main dashboard
- Click on the name of the staff person and copy their username and user code.

Name	Test Center Director
User Name	TestCenterDirector
User Code	2d66ba
Password	●●●●●●●●●●

- On the site that you want to add the user to, click on “Staff” on the main dashboard
- Click the blue “Add Existing User” button on the upper-left corner
- Type their username and user code and indicate the permission level
- Click “Save”.

Now when that staff person logs into My Food Program, the system will prompt them to select the site that they want to access:

Choose the Site You Wish to Work With:

Child Care Center

Test Center 2

Site Details

To create a new site within your sponsorship:

- Click “Sites” on the main sponsor dashboard.
- Click the blue “Add” button in the upper-left corner. (You can also upload sites in bulk, see separate instructions).
- Complete the fields as follows:

REQUIRED	FIELD	DESCRIPTION
✓	Name	enter the name of the site that you want to appear on your site list and all reports.
✓	Type	select the type of program (adult care, child care, afterschool program, emergency shelter). Note: only the types of programs that you sponsor are included as options.
✓	Legal Name	
	Pre-Qualifying Month	this does not apply to emergency shelters.
	Intended Start Date	for your recordkeeping.
	Actual Start Date	for your recordkeeping.
	End Date	for your recordkeeping.
✓	Profit Status	indicate if the site is for-profit or non-profit.
✓	Site Identification Number	you may use any string of letters, numbers and symbols that you wish for the site identification number. For many sponsors, the site identification number is assigned by their state agency.
	Tax Identification Number	for your recordkeeping for the distribution of tax documents
	Food Contracting Entity	if your state agency assigns an ID to vended meal contractors, you can enter that here and it will appear on food production record reports.
✓	Status	a status of “active” will allow users to login. A status of “inactive” will prevent any users from logging in.
✓	Address, City, State, Zip	
	Email Address	
	Phone	
✓	Daily Attendance Method	select “Present” or “In/Out”. See topics “Taking Attendance Using Present Option” and “Taking Attendance Using In/Out Option” in the Attendance section for further information on how these options will impact attendance entry.
✓	Meal Count Time Frame	select “Point of Service” or “Day”. If “Point of Service” is selected, then meal counts can only be entered during the meal time frame by staff. If “Day” is selected, then meal counts can be entered any time during the day. Meal counts can never be entered before a meal has started, regardless of the choice of meal count time frame.
	Restrict All Site Staff Meal Count Times (defaults to unchecked)	this requires even Site Director/Managers to enter meal counts within the specified time frame. If you have this box checked, then Site Director/Managers cannot go back and correct meal counts from prior days or times.

REQUIRED	FIELD	DESCRIPTION
✓	Time Zone	ensure that you select the correct time zone for the site as meal times are locked in accordance with the time zone adjustments.
✓	Meal Count Method	select “Headcount” or “Roster”. See topics “Taking Meal Counts by Name” and “Taking Headcount Meal Counts” in the Meal Counts section for further information on how these options will impact meal count entry.
	Shifts are an option for Meal Times (defaults to unchecked)	this allows users to record participants in shifts for meals. See separate instructions for details.
	Hide option for staff to take attendance (defaults to unchecked)	if this button is checked, staff can only take meal counts and not attendance. See separate instructions for details.
	Paper Attendance and Meal Counts are Master (defaults to unchecked)	if this button is checked, the dashboard buttons “Attendance” and “Meal Counts” collapse into one and it allows the entry of meal counts in bulk. See separate instructions for details.
	Ignore Meal Validation (2016 Meal Pattern; defaults to unchecked)	if this button is checked, meals are not checked for validation at all. This means that menus can be missing all together or contain non-creditable foods. Use this feature with care and it means that you are turning off all validation of creditable meals.
	Ignore Whole Grain Meal Errors (2016 Meal Pattern; defaults to unchecked)	if this box is checked, then meal validation will occur with the exception of the requirement for one whole grain-rich food per day. Note: this feature will be removed after September 30, 2018, which marks the end of the grace period for the implementation of the new meal pattern requirements.
	Site is Self-Sponsored (defaults to unchecked)	use this box if you are a single-site sponsor. See separate instructions for details.
	Invoicing Feature (defaults to unchecked)	this does not apply to emergency shelters.
	Hide Submit to Sponsor Button (defaults to unchecked)	some sponsors find that sites prematurely and accidentally click the “Submit to Sponsor” button, which then locks them out of entering meal counts or menus. If you would like to hide the “Submit to Sponsor” button until a calendar month is complete (and therefore prevent this mistake from happening), then select this feature. The downside of this feature is that sites may wish to submit their meal counts to their sponsor prior to the completion of a calendar month (for example, the final day of a calendar month lands on a weekend).
	Attendance Records Kept Outside of My Food Program (defaults to unchecked)	if this box is checked, then all participants appear on meal count rosters and meal counts are used to generate attendance. See separate instructions for details.
	Allow Staff to Add Participants on Mobile	This box is checked by default. Uncheck the box if you’d like staff to be restricted from adding participants using the mobile app.

REQUIRED	FIELD	DESCRIPTION
	Space/Time Percentage	entering a number in this field will mean that only a percentage of your expenses will be included in expense reports. See separate instructions for details.
✓	Licensing Age Range Errors	if you want My Food Program to validate that meal counts do not exceed licensed capacity, then you should select “Error”. If you have an alternate method of ensuring that meal counts do not exceed licensed capacity, then select “Ignore”.
✓	Enrollment Form Errors	enrollment forms do not apply to emergency shelters and this setting should always be “ignore”. If you set Enrollment Form Errors to “Ignore” the dashboard button for missing enrollment forms turns grey.
✓	Missing Infant Menu Errors	if you want infant meals disallowed if no infant menus are entered, select “Error”. If you have an alternate way of tracking infant menus or are not required to keep infant menus, then select “Ignore”.
	Logo	you can upload a logo in this spot. Typically, sponsors upload their own logo here to promote their sponsorship. If no logo is uploaded, then a blank box will appear in the upper-left corner of the site dashboard. The optimal size for a logo is 110x65 pixels. Allowed file types are .jpg and .png.
	Mobile Logo	you can upload a logo in this spot and it will be displayed if someone uses the My Food Program web app using a mobile browser.
	Site Hours (optional, but if you do not complete them, you cannot add meal times or take meal counts)	enter the times and days that the site is open using the blue “Add Hours” button on the right. If the site has different operating hours on different days of the week, you can indicate that by adding a second set of hours.
	Site Meal Times (optional, but if you do not complete them, you cannot enter menus or take meal counts)	enter the times that the site serves each meal. The amount of time that a meal lasts is not restricted, other than by the times that the site is open. However, meal times cannot overlap.
	Site USDA Dates	indicate the date that the new meal pattern was implemented at the site. Defaults to 10/1/2017.
	Site License	if you would like to use My Food Program to validate that meal counts do not exceed licensed capacity, then you should enter licensing information here. See separate instructions for details.
	Principals	use this section to track the key staff at each site, their role in the organization and the completion of their required training. See separate instructions for details.

Some sites choose to serve meals in shifts. For example, school-age children arrive for breakfast then leave for school. Then the preschool children arrive and also are served breakfast. If you added the school-agers and the preschoolers together, it would appear that the meal counts for breakfast exceed the licensed capacity. Meal shifts allow sites to properly document meal counts and also verify that licensed capacity was not exceeded at any one time.

To assign shifts to a meal:

- Click on “Site Details” on the main site dashboard.
- Click the checkbox next to “Shifts are an option for Meal Times”. Once this box is checked, an additional column appears in Site Meal Times called “Number of Shifts”.

Start Time	End Time	Meal	Number of Shifts	Is this a night meal?	Remove
07:00 am	08:30 am	Breakfast	2	<input type="checkbox"/>	<input type="button" value="Remove"/>

- Select the number of shifts for each meal. The minimum is 1 and the maximum is 3.
- Once a meal has been assigned as having more than 1 shift, the meal count screen changes. Each participant checked in for a meal must be assigned to a shift.

Name	Shift	Ate
Jane Doe	1	<input type="checkbox"/>
Jane Doe	2	<input type="checkbox"/>
Roger Jones	1	<input type="checkbox"/>
Roger Jones	2	<input type="checkbox"/>

- During meal validation, My Food Program will check that the total number of participants checked in for each shift does not exceed the licensed capacity.

Site Details: Attendance Records Kept Outside of My Food Program

We have two options for the relationship between meal counts and attendance:

1. **Meal counts are used to generate attendance records.** The attendance records can still be manipulated separately, which satisfies the requirement about separate meal count and attendance records. For example, participants can be marked in for attendance without being entered in for meal and meal counts will not always equal attendance.
2. **Attendance entry is required prior to the entry of meal counts.** With this configuration, ONLY the children marked in for attendance will appear on a meal count screen (it “filters” the children and only shows those that are checked-in and hides children that are not). For those sponsors that struggle with sites checking in the wrong participants for meals or have lengthy rosters, this could be a great option. However, be sure to train your sites carefully as they may be tempted to create a duplicate participant if they forget to mark a participant in for attendance and therefore don’t see them on the meal count list.

Note: USDA memo CACFP10-2018 specified that sponsors using electronic systems can forgo the five-day reconciliation. However, meal counts cannot be used to generate attendance records for the purposes of the 5-day reconciliation. Check with your state agency before skipping the five-day reconciliation.

To change the relationship between meal counts and attendance:

- Click on “Site Details” on the main dashboard.
- Change the checkbox “Attendance records kept outside of My Food Program”.

If the box is **UNCHECKED**

then only children marked as “in attendance” will appear on the meal count screen.

- Click “Save”.

If the box is **CHECKED**

then all active participants show up on the meal count screen and checking in a child for a meal will automatically check them in for attendance.

Site Details: Paper Attendance and Meal Counts are Master

My Food Program was designed to be used completely electronically. However, if a site needs to use paper records as a transition to electronic recordkeeping, we are able to accommodate that. Note that we DO NOT have the option to scan in paper records. All attendance and meal counts entered on paper must be manually entered electronically.

To designate a site as using paper recordkeeping:

- Click on “Site Details” from the main dashboard.
- Check the box “Paper attendance and meal counts are master”.
- Click “Save”.

You will now note that the main dashboard collapses the icons for “Attendance” and “Meal Counts” into one:

Refer to the separate instructions for entering attendance and meal counts using this paper method.

My Food Program can be used to verify that attendance and meal counts do not exceed licensed capacity.

To configure this setting, use the “Licensing Age Range Errors” option in Site Details:

- Click on “Site Details” on the main dashboard.
- Make the appropriate selection on “Licensing Age Range Errors”:
 - “Ignore” means that My Food Program will not check that attendance and meal counts are within licensed capacity.
 - “Error” means that My Food Program will check that attendance and meal counts are within licensed capacity.
- Click “Save”.

Before adding the Site Licensing information in Site Details, ensure that the licensing age ranges are correctly configured at the sponsor level. See separate instructions for details.

To add site licensing capacity:

- Click on “Site Details” on the main dashboard.
- Click on the blue “Add License” button.
- Enter a number in the field for “Capacity” and select the appropriate license age range.
- Repeat the “Add License” process until all license age ranges have been entered.
- Click “Save”.

Site Licensing + Add License			
Capacity	License Age Range	Night Capacity?	Remove
<input type="text" value="18"/>	<input type="text" value="Infant"/>	<input type="checkbox"/>	<input type="button" value="✖ Remove"/>
<input type="text" value="14"/>	<input type="text" value="Toddler"/>	<input type="checkbox"/>	<input type="button" value="✖ Remove"/>
<input type="text" value="20"/>	<input type="text" value="Preschool"/>	<input type="checkbox"/>	<input type="button" value="✖ Remove"/>
<input type="text" value="8"/>	<input type="text" value="School Age"/>	<input type="checkbox"/>	<input type="button" value="✖ Remove"/>

Special case: Combination License

In some states, there are additional restrictions on licenses. For example, the facility license may say::

- Capacity: 57
- Infants: 18
- Toddlers: 14
- Preschool/School Age: 20
- Not to Exceed 8 School Age

In this case, you need to add additional restrictions on licensed capacity. In addition to entering the numeric restrictions for infants, toddlers, preschoolers and school age, you ALSO need to add the restrictions on total capacity and the restriction on the combination of preschool and school-age.

To add additional restrictions on licensed capacity that apply to more than one age group:

- Click on “Site Details” on the main dashboard.
- Click on the blue “Add Age Range Combination” button.
- Select the age ranges that apply to the restriction and the “not to exceed” value.

Age Range Combination

Age Ranges

Not To Exceed

[Save](#)

- Click “Save” and the additional restrictions will appear on the screen.

Site Licensing [+ Add License](#)

Capacity	License Age Range	Night Capacity?	Remove
<input type="text" value="18"/>	<input type="text" value="Infant"/>	<input type="checkbox"/>	✕ Remove
<input type="text" value="14"/>	<input type="text" value="Toddler"/>	<input type="checkbox"/>	✕ Remove
<input type="text" value="20"/>	<input type="text" value="Preschool"/>	<input type="checkbox"/>	✕ Remove
<input type="text" value="8"/>	<input type="text" value="School Age"/>	<input type="checkbox"/>	✕ Remove

Age Range Combinations [+ Manage Age Range Combinations](#)

Age Ranges	Not To Exceed
Preschool School Age	20
Infant Toddler Preschool School Age	57

Sites are required to identify the key staff that are responsible for the implementation of the CACFP and provide identifying information to the sponsor in order to ensure that no key staff person is on the National Disqualified List. Entering the site principals here is for one-time recording purposes. If you wish to track their participation in annual training separately, then they should be added as Site Staff members.

To enter Principals (key staff) for a site:

- Click on “Site Details’ from the main dashboard.
- Scroll down to “Principals” and click the blue “Add Principals” button.
- Enter the fields:
 - **Name (required)**: include the name as it appears on official documents.
 - **Position (required)**: job title or position on the Board of Directors (for non-profit).
 - **Birthdate** (required)
 - **Term Dates** (optional): for members of the Board of Directors.
 - **Address** (required): assists with identification.
 - **Email Address** (required)
 - **Employer** (optional): if Board Member.
 - **Job Title at Employer** (optional)
 - **Conflicts** (optional): record conflicts of interest.
 - Checkboxes for “Can Vote” and “Receives Compensation” (optional)
- Click “Save”.

The screenshot shows a web form titled "Site Principal". It contains the following fields and options:

- Name: [Text Input]
- Position: [Text Input]
- Birthdate: [Text Input]
- Term Dates: [Text Input]
- Address: [Text Input]
- Email Address: [Text Input]
- Employer: [Text Input]
- Job Title at Employer: [Text Input]
- Conflicts: [Text Input]
- Can Vote:
- Receives Compensation:
- Save: [Green Button]

Closure/Field Trip

Closure/Field Trip: Adding and Viewing a Closure/Field Trip

The “Closure/Field Trip” section of My Food Program is intended for sites to provide prior notification to their sponsor of a site closure or a time when the children will be away from the site at meal time. This is so that a sponsor does not attempt to conduct a review visit on a day when a meal cannot be observed.

To add a new closure/field trip:

- Click on “Closure/Field Trip” on the main dashboard.
- Click the blue “Add” button in the upper-right corner.
- Complete the fields:
 - **Reason (required)**
 - **Date (required)**
 - **Meals not served at site (must select at least one)**
- Click “Save”.

A screenshot of a web form titled "Field Trips and Closures". The form contains the following fields and options:

- "Reason Off Site": A dropdown menu with "Select" as the current selection.
- "Date Off Site": A text input field.
- "Meals not served at site": A section with a label and a list of meal types, each with an unchecked checkbox:
 - Early Snack
 - Breakfast
 - AM Snack
 - Lunch
 - PM Snack
 - Supper
 - Evening Snack
- A green "Save" button is located in the bottom right corner of the form.

Closures/Field Trips can be logged by either the sponsor or the site to indicate the dates when meals will not be served on-site and a review visit should not be conducted.

To view closures/field trips:

- Click on “Closure/Field Trip” on the main dashboard.
- Upcoming closures and fields trips will be displayed on the screen.
- To view past closures and field trips logged, check the box “Include Closures/Field Trips Before Today”.

Expenses

The “Expenses” feature of My Food Program is intended for sites to upload receipts and invoices to document a nonprofit meal service.

To add a new expense:

- Click on “Expenses” on the main dashboard.
- Click the blue “Add Expense” button on the upper-right corner.
- Enter the information into the fields:
 - **Date (required):** the date the expense was incurred
 - **Expense Category (required):** the most common category used is Food (Actual Receipts)
 - **Description (required):** typically used to record the store at which the item was purchased and a summary of the expense. For example “Sam’s Club - paper goods”
 - **Amount (required)**
 - **Apply Space/Time Percentage:** check this box only if you are allocated expenses. For example, if the site has determined that they are allocating 50% of paper goods to CACFP, then they should:
 - Enter “50” as the space/time percentage in Site Details.
 - Enter the total amount spent on paper goods in the “Amount” field.
 - Check the box for “Apply Space/Time Percentage”.
 - **Upload Image (optional, but recommended):** upload a photograph or scan of the receipt.
- Click “Save” and the expense is now viewable and will be included in expense reports.

A screenshot of the "Expense" form in the My Food Program interface. The form is titled "Expense" and contains several input fields: "Date" (text input), "Expense Category" (dropdown menu with "Select" as the current selection), "Description" (text input), and "Amount" (text input). Below these fields is a checkbox labeled "Apply Space/Time Percentage". Underneath the checkbox are two file upload options: "Upload Image" with a "Choose File" button and "No file chosen" text, and "Current Image" with "(No Image)" text. A green "Save" button is located in the bottom right corner of the form.

To delete an expense:

- Click on “Expenses” on the main dashboard.
- Click on the red “Delete” button next to the expense you wish to remove. **Note:** this action is permanent and also deletes any files uploaded to the expense. Use this feature with care.

*Review
Disallowed Meals*

Review Disallowed Meals: Claims Step 1: Meal Validation by Site

NOTE: the dashboard icon “Review Disallowed Meals” is called “Submit to Sponsor” if logged in as a site-level user. In addition, site-level users do not have a “Process Claim” dashboard button.

The claims process has five steps:

1. Meal validation (“check for errors”) by the site.
2. Review and correction of any errors by the site.
3. Submission to sponsor by the site.
4. Correction of any errors and meal disallowances by the sponsor.
5. Claims creation by the sponsor.

To complete the first step in the claims creation process, meal validation (“check for errors”):

- Click on “Submit to Sponsor” on the main dashboard.
- Select the Month/Year from the upper-right drop-down menu.
- A list of meals that have not been validated appears on the screen with the following columns:
 - Date
 - Meal
 - Menu Entered: this will display “true” if a menu has been entered and “false” if a menu is missing. Depending on your site configuration, this might stop your claim from proceeding. Check site configuration for details.
 - Meal Count: the total number of children checked in for the meal across all rosters.
 - Food Production: this will display “true” if a food production record has been entered and “false” if there is no food production record. This is for information only, your claim will proceed without a food production record entered.

Submit Meal Attendance					July 2018
Date	Meal	Menu Entered	Meal Count	Food Production	
07/02/2018	Breakfast	true	7	true	
07/02/2018	AM Snack	true	6	false	
07/02/2018	Lunch	true	7	false	
07/02/2018	PM Snack	true	3	false	
07/03/2018	Breakfast	true	6	false	

- Scroll to the bottom of the page and click “Check for Errors”.

07/20/2018	AM Snack	true	7	false	
07/26/2018	Breakfast	true	2	false	
07/29/2018	Breakfast	false	1	false	

[Check for Errors](#) [Submit to Sponsor](#)

Review Disallowed Meals: Claims Step 1: Meal Validation by Site

- The system will now run the meals through validation. This may take several minutes. You do not need to remain on this page for the meal validation process to continue. Depending on how you have the site configured, My Food Program will be checking that:
 - Meals were entered only for dates and times that the facility was open.
 - Licensed capacity was not exceeded.
 - Meal counts did not exceed attendance.
 - Menus meet meal pattern requirements.
 - All children were within the licensing age ranges of the facility.
 - Infant menus were entered.
- Once the meal validation is complete, the list of meals will disappear and any errors generated will be displayed below. If there are no errors, the “Meal Errors” section will be blank. See separate instruction for details on how the site should review these errors prior to submitting their meal counts to their sponsor.

Review Disallowed Meals: Claims Step 2: Review of Errors by Site

NOTE: the dashboard icon “Review Disallowed Meals” is called “Submit to Sponsor” if logged in as a site-level user. In addition, site-level users do not have a “Process Claim” dashboard button.

The claims process has five steps:

1. Meal validation (“check for errors”) by the site.
2. Review and correction of any errors by the site.
3. Submission to sponsor by the site.
4. Correction of any errors and meal disallowances by the sponsor.
5. Claims creation by the sponsor.

Once step 1 is completed, a list of errors will appear on the screen. There are 18 possible errors that can be generated during meal validation. **Sites must not resolve errors unless they are genuine, have documentation and a logical explanation. If errors are true violations of CACFP rules and not incorrect input, the corresponding meals will be disallowed in the claims creation process.**

Instructions for sites to resolve genuine errors is contained in the site-level guide for managers/directors.

Review Disallowed Meals: Claims Step 3: Submit to Sponsor by Site

NOTE: the dashboard icon “Review Disallowed Meals” is called “Submit to Sponsor” if logged in as a site-level user. In addition, site-level users do not have a “Process Claim” dashboard button.

The claims process has five steps:

1. Meal validation (“check for errors”) by the site.
2. Review and correction of any errors by the site.
3. Submission to sponsor by the site.
4. Correction of any errors and meal disallowances by the sponsor.
5. Claims creation by the sponsor.

Once meals have been validated by the site and any errors have been resolved, the site needs to complete step 3 to alert the sponsor that they are finished with their claim for reimbursement.

To submit a claim to a sponsor:

- Click on “Review Disallowed Meals” (logged in as sponsor) or “Submit to Sponsor” (logged in as site).
- Click on the green “Submit to Sponsor” button.
- A warning message will appear. Click “OK” to proceed.

prod.myfoodprogram.com says

This will finalize the meals for this month and you won't be able to change it anymore, are you sure?

OK

Cancel

- The system will not run through the validation process. Depending on the size of the site and the way the Site Details are configured, this may take several minutes.
- When claim submission is complete, the “Submit to Sponsor” button disappears. In addition, the site can no longer change menus or alter meal count or attendance records.

Process Claim

Process Claim: Claims Step 4: Review of Errors and Meal Disallowances by Sponsor

NOTE: the dashboard icon “Review Disallowed Meals” is called “Submit to Sponsor” if logged in as a site-level user. In addition, site-level users do not have a “Process Claim” dashboard button.

The claims process has five steps:

1. Meal validation (“check for errors”) by the site.
2. Review and correction of any errors by the site.
3. Submission to sponsor by the site.
4. Correction of any errors and meal disallowances by the sponsor.
5. Claims creation by the sponsor.

Once a site has indicated that they have completed the review of their meal counts and attendance for the month, the next step is for the sponsor to complete a second review and also disallow any meals. Any errors that have been identified by My Food Program are listed on the “Review Disallowed Meals” screen. Below is a list of all potential errors and the method used to resolve the errors if it is possible. You may be asking the site for additional documentation in order to clear errors. **Sponsors must not resolve errors unless they are genuine, have documentation and a logical explanation. If errors are true violations of CACFP rules and not incorrect input, the corresponding meals will be disallowed in the claims creation process.**

#	ERROR	HOW IT GETS TRIGGERED	HOW TO GET DETAILS	WHAT TO DO NEXT
1	Meals claimed for children who are not enrolled in the program.	Site Details are configured to “Error” for Enrollment Form Errors AND child does not have an enrollment form entered into My Food Program.	Disallowed Meals Report will list the names of the children with missing enrollment forms. Also: the Missing Forms Report will show any missing or expired forms and can be run at any time.	Add an enrollment form for each child that is missing one. If no enrollment form exists, meals must remain disallowed. If enrollment forms are not required in your state: Change Site Details configuration to “Ignore”.
2	Meals claimed for children who have expired enrollments in the program.	Site Details are configured to “Error” for Enrollment Form Errors AND child has an expired enrollment form.	Disallowed Meals Report will list the names of the children with expired enrollment forms.	Update enrollment form dates for each child with an expired form. If no form exists, meals must remain disallowed. If enrollment forms are not required in your state: Change Site Details configuration to “Ignore”.

*Process Claim: Claims Step 4:
Review of Errors and Meal Disallowances by Sponsor*

#	ERROR	HOW IT GETS TRIGGERED	HOW TO GET DETAILS	WHAT TO DO NEXT
3	Meals/snacks claimed in excess of the approved total license capacity.	Site Details are configured to “Error” for Licensing Age Range Errors AND a meal or snack has more children checked in than is allowed by the total licensed capacity.	Disallowed Meals Report will list the meal(s) or snack(s) that exceed the total licensed capacity.	Verify that the license capacities on the site setup page are accurate. If so, meals must remain disallowed. If you have another system to track that licensing is met: Change Site Details configuration to “Ignore” Licensing Age Range Errors.
4	Meals/snacks claimed outside of the operating days.	A meal count is entered for a meal or snack that is not on a day that the facility is open. NOTE: this can only occur if site days of operation are changed in Site Details after a meal count is entered.	Disallowed Meals Report will list the meal(s) and/or snack(s) that were recorded and are now outside the operating days.	Verify the days and meals that the facility is open under “Site Details”. Remove or disallow the meal/snack counts for the days that are outside of operating days.
5	Meals/snacks claimed outside of the operating hours.	A meal count is entered for a meal or snack that is during a time that the facility is not open. NOTE: this can only occur if site times of operation are changed in Site Details after a meal count is entered.	Disallowed Meals Report will list the meal(s) and/or snack(s) that were recorded and are now outside the operating times.	Verify the times and meals that the facility is open. If accurate, meals must remain disallowed. Remove or disallow the meal/snack counts that are outside of operating hours.
6	Meals served to children over age 13* *This error only applies to child care facilities.	A child is checked in for a meal and their birthdate makes them 13 years or older.	Disallowed Meals Report will list the children that are 13 years or older.	Verify the birthdate of the child is correct. If they are over 13, meals must remain disallowed.
7	Meals/snacks claimed in excess of the approved age range license capacity.	Site Details are configured to “Error” for Licensing Age Range Errors AND a meal or snack has more children checked in in a specific age range than is allowed by licensing.	Disallowed Meals Report will list the meal(s) or snack(s) that exceed the age range licensed capacity.	Verify that the license capacities on the site setup page are accurate. If so, meals must remain disallowed. If you have another system to track that licensing is met: Change Site Details configuration to “Ignore” Licensing Age Range Errors.

*Process Claim: Claims Step 4:
Review of Errors and Meal Disallowances by Sponsor*

#	ERROR	HOW IT GETS TRIGGERED	HOW TO GET DETAILS	WHAT TO DO NEXT
8	Meals which do not meet the USDA meal pattern requirements.	Site Details are configured to validate menus AND a meal or snack does not meet the meal pattern requirements.	Disallowed Meals Report will list the meal(s) or snack(s) that are not creditable.	Verify that the meal or snack menu to accurate as to what components were served. If so, meals must remain disallowed. If you are using another system to track menus: Change Site Details configuration to "Ignore meal validation".
9	Meals claimed that differ from those recorded by the field monitor at the time of the visit.	A meal recorded by a site differs from the meal recorded by a monitor.	Disallowed Meals Report will list the meal or snack that is a mis-match. Visits will have details about the menu recorded by the monitor while the Menus section will have the menu recorded by the site.	Revise the site menu to match that recorded by the field monitor. This is most likely related to specific callouts on units or product numbers. Ex: Blueberries, fresh, lbs VS Blueberries, cups.
10	Meals for which there are no menus.	Site Details are configured to enforce meal validation AND a meal count has been entered for a meal or snack and no menu was entered.	Disallowed Meals Report will list the meal(s) and snack(s) without menus.	Delete or disallow the meal counts. Add a creditable menu that matches what was actually served. If you are using another system to track menus: Change Site Details configuration to "Ignore meal validation".
11	Meal total count greater than number of participants.	The number of children checked in for a meal is greater than the number of children checked in for attendance.	Disallowed Meals Report will list the meal(s) and snack(s) with meal counts greater than attendance.	Verify which count matches reality: the attendance or the meal count (requires another system such as a parent check-in at the door). Delete or disallow meal counts for children recorded in error, revise attendance if it can be proved.
12	Meal count is zero for head count based site.	A menu is entered but no children were marked in for the meal.	Disallowed Meals Report will list the meal(s) and snack(s) without a count entered.	Enter meal counts if they were recorded on a backup (ex: paper or other system), otherwise they must remain disallowed.

*Process Claim: Claims Step 4:
Review of Errors and Meal Disallowances by Sponsor*

#	ERROR	HOW IT GETS TRIGGERED	HOW TO GET DETAILS	WHAT TO DO NEXT
13	No age range configured for participant on meal.	A child with a birthdate of an infant was checked in for a meal and then the birthdate was changed to be a non-infant.	Disallowed Meals Report will list the children with the birthdate that was changed.	Ensure the child's birthdate is correct, then remove their meal attendances and re-enter them with the correct birthdate.
14	Meals for which there is no infant menu.	Site Details are configured to Error for "Missing Infant Menu Errors" and an infant was checked in for a meal and no infant menu was entered.	Disallowed Meals Report will list the meal(s) and snack(s) that are missing an infant menu.	Enter an infant menu that matches what was actually served. Remove or disallow the infant meal counts. If you use another system to track infant menus: Change Site Details configuration to Ignore "Missing Infant Menu Errors".
15	No licensing age range for participant.	A child was checked in for a meal and their birthdate is outside the age ranges set in Site Details under Licensing.	Disallowed Meals Report will list the child that is outside the age range of the facility license.	Verify that the correct the birthdate of the child was input. Verify that the school attendance flag is correct. The "attends or is enrolled in school" check box determines which age range they are counted against. If you have another system to track licensing: Change Site Details configuration to Ignore "Licensing Age Range Errors".
16	Meal does not meet 2016 meal pattern (Juice).	Site Details are configured to validate menus and juice was included on the menu twice in one day.	Disallowed Meals Report will list the date on which juice was on the menu twice.	Verify that the menu matches what was served. If so, meals must remain disallowed.
17	Meal does not meet 2016 meal pattern (Proteins).	Site Details are configured to validate menus and meat/meat alternate was served instead of grain more than three times in a week.	Disallowed Meals Report will list the dates on which meat/meat alternate was substituted for grain.	Verify that the menu matches what was served, that ONLY a protein was served at breakfast more than three times in a week. If so, meals must remain disallowed.
18	No whole grain-rich food served on this date.	Site Details are configured to validate menus and no whole grain-rich foods were included on the menu.	Disallowed Meals Report will list the dates on which a whole grain-rich food was missing.	Verify that there wasn't an input error where an enriched food was input instead of a whole grain-rich. If not, meals must remain disallowed.

Process Claim: Claims Step 4: Review of Errors and Meal Disallowances by Sponsor

There are also instances in which a sponsor will need to disallow meals, even though they pass the My Food Program meal validation process.

To disallow meals:

- Click on “Meal Count” on the main dashboard.
- Select the date, meal and roster.
- Disallow meals as follows:
 - If you are disallowing only some of the meals (for example, at a review visit it was observed that a child brought a meal from home and should not have been included in the meal count) , or the meals are being disallowed for different reasons, then check the boxes next to the child’s name and select the reason.

The screenshot shows a web interface for disallowing meals. At the top, there are input fields for Date (08/13/2018), Roster (Toddler), and Meal (Breakfast). Below these is a 'Current Total' field with the value 6. A section titled 'Disallow Meal' contains a table with columns for Name, Ate (checkbox), and a dropdown menu for selecting a reason. The table lists three children: Jane Doe, Roger Jones, and Gavin Parker. For Gavin Parker, the 'Ate' checkbox is checked, and the reason selected is 'Special dietary need not correctly accor'. This row is circled in orange.

Name	Ate	Select
Jane Doe	<input checked="" type="checkbox"/>	Parent-provided meal
Roger Jones	<input checked="" type="checkbox"/>	Select
Gavin Parker	<input checked="" type="checkbox"/>	Special dietary need not correctly accor

- If you are disallowing all the meals for that date, meal and roster, then select the upper-most “Disallow Meal” box and select the reason. This will then select all the children’s names and apply the reason to all of them.

The screenshot shows the same web interface as above. In the 'Disallow Meal' section, the 'Ate' checkbox is checked for all children, and the reason selected for all is 'Meal counts not taken at point of servic'. This row is circled in orange.

Name	Ate	Meal counts not taken at point of servic
Jane Doe	<input checked="" type="checkbox"/>	Meal counts not taken at point of servic
Roger Jones	<input checked="" type="checkbox"/>	Meal counts not taken at point of servic
Gavin Parker	<input checked="" type="checkbox"/>	Meal counts not taken at point of servic

- Click “Save” and these meals will now be disallowed and appear on the Disallowed Meals Report with the special designator “Disallowed by Sponsor”.

Process Claim: Claims Step 5: Processing Claims by Sponsor

NOTE: the dashboard icon “Review Disallowed Meals” is called “Submit to Sponsor” if logged in as a site-level user. In addition, site-level users do not have a “Process Claim” dashboard button.

The claims process has five steps:

1. Meal validation (“check for errors”) by the site.
2. Review and correction of any errors by the site.
3. Submission to sponsor by the site.
4. Correction of any errors and meal disallowances by the sponsor.
5. Claims creation by the sponsor.

Note: the instructions below are for creating a claim for an individual site. If you wish to process claims for multiple sites under the same sponsorship, this is more efficiently done using the Sponsor-level “Claims” tab. See separate instructions for details.

To create a claim:

- Click on “Process Claim” from the main dashboard.
- Select the correct month and year from the drop-down menu.
- Click “Create Claim”.
- My Food Program will now go through the meal validation process. Depending on the size and configuration of the site, this may take several minutes.
- When the claim is finished, you will be directed to the claim screen with a summary of payable meals.

A screenshot of a web application interface showing a summary of a claim. The title is "Claim". The data is as follows:

Claim Date:	July 2017
Site Identification:	TESTCENTER1
Early Snack Count:	0
Breakfast Count:	60
AM Snack Count:	71
Lunch Count:	128
PM Snack Count:	64
Supper Count:	0
Evening Snack Count:	0

In the bottom right corner, there is a red button labeled "Rollback Claim".

- More details on a claim is available in the Report section. See separate instructions for details.

Process Claim: Rolling Back Claims

Claims can be rolled back in My Food Program, but this feature should be used with great care as no record of the claim will be retained. **If a claim has already been submitted to the state agency for reimbursement, then we strongly recommend printing or saving the following reports to substantiate the original claim prior to rolling back the claim:**

1. Meal Count by Name Report
2. Participant Report
3. Claim Summary Report

Common reasons to roll back a claim include:

- Receiving household income eligibility forms or enrollment forms for the prior month that should be included in the claim.
- Receiving additional paperwork to substantiate a claim or provide reason to disallow meals.

To roll back a claim:

- Click on “Process Claim” on the main dashboard.
- Select the correct month/year from the drop down.
- Click on the red “Rollback Claim” button.
- Click “OK” when the system prompts you to confirm.
- The claim is now rolled back and the meals are set to new. Menus, meal counts, income forms, enrollment forms and other data can now be changed. To re-create a claim, start-over at step 1 of the claims process.

Reports

The Participant Report is a list of the children that attended during a calendar month and their F/R/P status. Note that a child must only be checked in for attendance to appear on this report, they do not necessarily need to have eaten a meal to be included in the report.

The choices on the Participant Report include the month/year and then up to three additional options:

- “All” should appear for all sites. This means that all participants will be on the report, including those marked as non-CACFP.
- “CACFP” will appear for all sites. This means that only children marked as participating in CACFP will be included on the report. Non-CACFP children will be excluded.

To run the report, make your selections for the month/year and the filter for children to include and click the green “Run Participant Report” button. A hyperlink “Download Report” will appear in the lower-left corner. Click the hyperlink to download or open the report. This is what the Participant Report looks like:

Emergency Shelter				Participants Report		
				08/01/2018 - 08/31/2018		
Name	Group ID	Site ID	Birth Date	F/R/P	Subsidy	
Joshua Jones			02/22/2017	C-Paid	F	
James Mitchell			09/27/2010	C-Paid	F	
Amanda Parker			11/01/2014	C-Paid	F	
Virginia Parker			02/05/2011	C-Paid	F	
Philip Ramirez			10/19/2014	C-Paid	F	
Patricia Rodriguez			01/02/2015	C-Paid	F	
Ruby Smith			08/03/2010	C-Paid	F	
Jery Wilson			10/13/2013	C-Paid	F	

Features of the Participant Report:

1. Children's names are listed alphabetically by last name.
2. If you have entered a Group ID or Site ID for each participant, it appears here. If no Group ID or Site ID was entered, these columns are blank.
3. Birth date is included for reference.
4. The F/R/P column will list every participant as A-Free since emergency shelters are not required to collect income eligibility forms.
5. The "Subsidy" column indicates whether the child has been marked as receiving subsidized care on their participant screen. (It is set to "T" for true if the box "Receives Subsidized Care" is checked in participant details. It is set to "F" for false if the box is unchecked). The percent of children receiving subsidized care is calculated separately from the percent of children in each income category.
6. In the footer of the report, there are several important details:
 - a. Effective dates for the report.
 - b. Total number of participants that were marked in attendance for the month.
 - c. Number of participants in each income category.
 - d. F/R/P ratio is $(A+B)/(A+B+C)$ and then rounded DOWN.
 - e. Subsidy ratio (Receiving Subsidized Care/Total Participants).

The Missing Forms Report displays a list of participants missing Income Eligibility Forms or Enrollment Forms and those with forms that will expire within 60 days. The Missing Forms Report is a “real-time” report. It simply reports the status of income and/or enrollment forms at the current time.

The choices on the Missing Forms Report include:

- “All” which includes both income forms and enrollment forms.
- “Household Income Form” which includes income forms and excludes enrollment forms.
- “Enrollment Form” which includes enrollment forms and excludes income forms.

To run the report, make your selection and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

08/19/2018				
Name	Group ID	Site ID	Household Income Form	Enrollment Form
Chelsea Adams		1	Expires on: 05/31/2019	Missing Form/Date
Bob Andersen		2	Expires on: 05/31/2015	Expires on: 04/29/2017
April Garcia		6	Expires on: 10/31/2018	Missing Form/Date

08/19/2018 Page 1 of 1

Features of the Missing Forms Report:

1. Children’s names are listed alphabetically by last name.
2. If you have entered a Group ID or Site ID for each participant, it appears here. If no Group ID or Site ID was entered, these columns are blank.
3. The expiration date or “Missing Form/Date” appear for the income and/or enrollment form column.

The Ethnicity/Racial Report is intended to assist sponsors with completing their required reporting on the race and ethnicity of the children served. It is a report by month of race and ethnicity information on each participant that attended that month. The Ethnicity/Racial Report is a “real-time” report. It simply reports the status of each participant’s race and ethnicity category at the current time.

The choices on the Ethnicity/Racial Report include the month/year and then up to three additional options:

- “All” should appear for all sites. This means that all participants will be on the report, including those marked as non-CACFP.
- “CACFP” will appear for all sites. This means that only children marked as participating in CACFP will be included on the report. Non-CACFP children will be excluded.

To run the report, make your selections for the month/year and the filter for children to include and click the green “Run Report” button. A hyperlink “Download Report” will appear. Click the hyperlink to download or open the report. This is what the Ethnicity/Race Report looks like:

08/19/2018				
Name	Group ID	Site ID	Ethnicity	Race
Chelsea Adams		1	Unset	White
Bob Andersen		2	Unset	Two or More Races
Olivia Daniels		3	Unset	Black or African American
Roger Daniels		4	Unset	Unset
John Doe		5	Unset	Unset
April Garcia		6	Hispanic or Latino	Unset
Roger Jones		7	Unset	Two or More Races

June's ethnicity/racial count:		
Ethnicity	Race	
Hispanic or Latino : 1	American Indian or Alaskan Native : 0	Asian : 0
Non Hispanic or Latino : 0	Black or African American : 1	White : 1
Unset : 6	Native Hawaiian or Other Pacific Islander : 0	Unset : 3
		Two or More : 2

Features of the Ethnicity/Racial Report:

1. Children's names are listed alphabetically by last name
2. If you have entered a Group ID or Site ID for each participant, it appears here. If no Group ID or Site ID was entered, these columns are blank.
3. Ethnicity and Race columns include the selections made on the participant screen. If no race or ethnicity was set, the report says "Unset".
4. At the footer of the report is the summary information you need for reporting:
 - a. Total counts for each ethnicity category.
 - b. Total counts for each racial category.

Reports: Participants: Lapsed Participant Report

The Lapsed Participant Report provides a list of children who have not been checked in for attendance or meal count for at least 90 days. This will help sponsors and sites keep track of participants that should be set to “inactive”. The Lapsed Participant Report is a “real-time” report and includes all types of participants except those marked to “inactive”.

To run the report:

- Click the green “Run Report” button.
- A hyperlink will appear called “Download Report”.
- Click the hyperlink to download or view the report.

Test Center 2		Lapsed Participant Report	
08/30/2018 to 06/01/2018			
Last name	First name	Birth date	Roster name
Doe	Jane	03/28/2013	Unassigned

The Disallowed Meals Report is a list of the meals that were not included in the claim for a calendar month. Includes the date, meal type, participant) and the reason for the disallow. **The Disallowed Meals Report changes every time you “Check for Errors”.** If you are referencing this report to understand claims errors, be sure that you have clicked “Check for Errors” immediately before viewing this report.

The choices on the Disallowed Meals Report include the month/year and then the following additional options:

- “All” should appear for all sites. This means that all participants will be on the report, including those marked as non-CACFP.
- “CACFP” will appear for all sites. This means that only children marked as participating in CACFP will be included on the report. Non-CACFP children will be excluded.

- “All” will give you a list of errors that are both “Disallowed”(there was an error or a sponsor disallow) and “Not Payable” (the number of meals/snacks that a child was checked in for exceeds the daily claim limit).
- “Disallowed Only” will give you a list of only meals excluded from a claim because of an error or sponsor disallow.
- “Not Payable” will give you a list of only meals excluded from a claim because they exceeded the daily claim limit.

To run the report, make your selection and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

08/19/2018				
Date Served	Meal	Status	Error	Participant
03/23/2018	Breakfast	DISALLOWED	Meals for which there are no menus	
03/26/2018	Breakfast	DISALLOWED	Meals for which there are no menus	
03/26/2018	Lunch	DISALLOWED	Meals for which there are no menus	
03/26/2018	Lunch	DISALLOWED	Meal total count greater than number of participants.	
03/27/2018	Breakfast	DISALLOWED	Meals for which there are no menus	

08/19/2018
Number of DISALLOWED meals: 5
Cost of DISALLOWED Meals: \$11.71
Page 1 of 1

Features of the Disallowed Meals Report:

1. Date Served
2. Meal
3. Status: there are two status options. “Disallowed” means that there was an error or a sponsor disallow. “Not Payable” means that the number of meals/snacks that a child was checked in for exceeds the daily claim limit.
4. Error: this will list one of the 18 potential errors. For information on how the errors are generated, see the separate instructions.
5. Participant: if the meal is disallowed for a specific child, then their name will be listed here. For example, if a disallow is for a missing enrollment form, the child with the missing form will be listed.
6. In the footer of the report are two pieces of important information:
 - a. The number of disallowed meals. **Note:** this does not include the “not payable” meals that were due to the claim limit.
 - b. The cost of the disallowed meals: this can encourage the site to increase compliance with the CACFP regulations in order to maximize their reimbursement.

The Meal Count Summary Report is most often used by sponsors who need to report claim information using actual meal counts by type (not a blended rate). **This report provides the number of “A-Free”, “B-Reduced” and “C-Paid” meals on each date for each roster.** You can choose whether to display the raw counts, only those that were claimed or only those that were disallowed.

Note: the Meal Count Summary report separates the meal counts by income category (i.e. you served 24 lunches this month to children from households in the “B-Reduced” category). If you want the total number of meals/snacks for all income categories combined (i.e. you served 1,251 lunches this month), you will need to manually add them up using this report. We recommend that you run the “Claim Summary Report” instead.

The choices on the Meal Count Summary Report include the month/year and also the following options:

- Meal Selection: choose the meal or snack type.

The screenshot shows the 'Meal Count Summary' report interface. It features a header with the title 'Meal Count Summary'. Below the header, there are three dropdown menus: the first is set to 'August 2', the second is set to 'Select', and the third is also set to 'Select'. To the right of these dropdowns is a green 'Run Report' button. A dropdown menu is open under the second 'Select' dropdown, showing the following options: 'Select', 'Early Snack', 'Breakfast', 'AM Snack', 'Lunch', 'PM Snack', 'Supper', and 'Evening Snack'. At the bottom of the interface, there is a small text box containing the version and build date: 'Version: 1.7.8.20180731.112317 Build Date: 2018-08-18-12:40:07'.

- Payable Status:
 - “All” includes all raw counts
 - “Recap” includes only payable meal counts and excludes non-payable and disallowed meals. This is the version that will match your Claim Summary Report.
 - “Disallowed” includes only non-payable and disallowed meals. This is the version that will match your Disallowed Meals Report.

The screenshot shows the 'Meal Count Summary' report interface. It features a header with the title 'Meal Count Summary'. Below the header, there are three dropdown menus: the first is set to 'August 2', the second is set to 'Select', and the third is also set to 'Select'. To the right of these dropdowns is a green 'Run Report' button. A dropdown menu is open under the second 'Select' dropdown, showing the following options: 'Select', 'All', 'Recap', and 'Disallowed'. At the bottom of the interface, there is a small text box containing the version and build date: 'Version: 1.7.8.20180731.112317 Build Date: 2018-08-18-12:40:07'.

- Types of Meals:
 - “All” should appear for all sites. This means that all participants will be on the report, including those marked as non-CACFP.
 - “CACFP” will appear for all sites. This means that only children marked as participating in CACFP will be included on the report. Non-CACFP children will be excluded.

Features of the Meal Count Summary Report:

- There are four sections to the report:
 - Section I has the meal counts for children in the A-Free category.
 - Section II has the meal counts for children in the B-Reduced category.
 - Section III has the meal counts for children in the C-Paid category.
 - Section IV has the meal counts for non-CACFP children.
- The days of the month are in the header row.
- The rosters are in the first column.

The Meal Count by Roster is most often used by sponsors who need to report claim information using actual meal counts by type (not a blended rate). **The Meal Count by Roster report is extremely detailed and must be run separately for each meal type (breakfast, lunch, etc.) and each roster.** It only includes raw counts.

The choices on the Meal Count by Roster include the month/year and also the following options:

- Meal Selection: choose the meal or snack type.

A screenshot of a web form titled "Meal Participation Record". The form has a white background with a dark blue header bar. Below the header, there are three dropdown menus. The first dropdown is labeled "Septerr" and has a downward arrow. The second dropdown is labeled "Select" and has a downward arrow. The third dropdown is labeled "Select" and has a downward arrow. To the right of these dropdowns is a dropdown menu that is currently open, showing three options: "Select" (highlighted in blue), "All", and "CACFP Meals Only".

- Roster
- Types of Meals:
 - "All" should appear for all sites. This means that all participants will be on the report, including those marked as non-CACFP.
 - "CACFP" will appear for all sites. This means that only children marked as participating in CACFP will be included on the report. Non-CACFP children will be excluded.

To run the report, make your selection and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

Features of the Meal Count by Roster:

1. All children that we checked in on that day. Note: if you have children on multiple rosters, they will appear only on the roster that they were checked in on for that day, NOT on each roster to which they are assigned.
2. Summary grid of counts in each income category.

The Meal Count by Name is one of the most useful reports for detailed reconciliation of meal counts for individual children. **The Meal Count by Name report provides information on each child and which meals/snacks they were checked in for on each day of the month.** It also has a helpful summary grid at the bottom of the report.

The choices on the Meal Count by Name include the month/year and also the following options:

- Payable Status:
 - “All” includes all raw counts
 - “Payable” includes only payable meal counts and excludes non-payable and disallowed meals. **This is the version that will match your Claim Summary Report.**

- Types of Meals:
 - “All” should appear for all sites. This means that all participants will be on the report, including those marked as non-CACFP.
 - “CACFP” will appear for all sites. This means that only children marked as participating in CACFP will be included on the report. Non-CACFP children will be excluded.

To run the report, make your selection and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

	DOB: 2/6/2015												Age: 3Y					6M

AM Snack		1	1	1	1	1																														11
Lunch		1	1	1	1	1																														11
PM Snack		1																																		10

Features of the Meal Count by Name:

1. There is an individual grid for each participant.
2. Each square is color-coded:
 - a. Yellow squares indicate meals that were PAYABLE (i.e. included in the claim).
 - b. Gray squares indicate meals that were NON-PAYABLE (or DISALLOWED).
 - c. Blue squares indicate meals that were for non-CACFP participants.
 - a. White squares (no background) indicate that the meals were NOT VALIDATED. The most common reason for this is that they were disallowed by sponsor.
3. Meal count grand totals are at the bottom grid.

The Meal Count by Roster Summary is identical to the Meal Count by Name report except that the names are listed by roster first and then alphabetically. **The Meal Count by Roster Summary report provides information on each child and which meals/snacks they were checked in for on each day of the month and organized by roster.** It also has a helpful summary grid at the bottom of the report.

The choices on the Meal Count by Roster Summary include the month/year and also the following options:

- Payable Status:
 - “All” includes all raw counts.
 - “Payable” includes only payable meal counts and excludes non-payable and disallowed meals. **This is the version that will match your Claim Summary Report.**

The screenshot shows the title "Meal Count By Roster Summary Report" at the top. Below the title are two dropdown menus. The first dropdown menu is set to "September 20" and the second is set to "Select". To the right of these menus is a third dropdown menu that is open, showing the following options: "Select", "All", and "CACFP Meals Only".

- Types of Meals:
 - “All” should appear for all sites. This means that all participants will be on the report, including those marked as non-CACFP.
 - “CACFP” will appear for all sites. This means that only children marked as participating in CACFP will be included on the report. Non-CACFP children will be excluded.

To run the report, make your selection and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

Features of the Meal Count by Roster Summary:

1. There is an individual grid for each participant.
2. Each square is color-coded:
 - a. Yellow squares indicate meals that were PAYABLE (i.e. included in the claim).
 - b. Gray squares indicate meals that were NON-PAYABLE (or DISALLOWED).
 - c. Blue squares indicate meals that were for non-CACFP participants.
 - a. White squares (no background) indicate that the meals were NOT VALIDATED. The most common reason for this is that they were disallowed by sponsor.
3. Meal count grand totals are at the bottom grid.

The Bulk Entry Sheet report is used only by sites using the paper method for attendance and meal count recording. Paper attendance and meal count sheets can be generated for individual rosters using the “Enter Attendance & Meal Count from Paper” dashboard button. **The Bulk Entry Sheet report allows you to generate the paper forms for all rosters in one PDF.** They have a slightly different appearance from those forms generated using the “Enter Attendance & Meal Count from Paper”.

The choices on the Bulk Entry Sheet report include the date and the rosters. Select multiple rosters using the checkboxes or “Select All” to print sheets for all rosters.

To run the report, make your selection and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

Reports: Claims: Summary Report for Sites Using Headcount

The Summary Report for Sites using Headcount is a summary of the date, roster, and all meals and snacks that were entered for the month. This includes all raw data.

The only selection on the Summary Report for Sites using Headcount is the month/year.

To run the report, make your selection and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

Reports: Claims: Five Day Meal Count Report

The Five Day Meal Count Report is used to reconcile attendance and meal counts while on a review/monitoring visit. It contains meal counts and attendance for each participant per meal for a given week organized alphabetically by last name.

The choices on the Five Day Meal Count Report include the date and type of meals:

- “All” should appear for all sites. This means that all participants will be on the report, including those marked as non-CACFP.
- “CACFP” will appear for all sites. This means that only children marked as participating in CACFP will be included on the report. Non-CACFP children will be excluded.

Features of the Five Day Meal Count report:

1. Names are listed alphabetically by last name.
2. If a child was marked in for a meal, there is an “X” in the box. If the child was not marked in for the meal, there is an “0” in the box.
3. The column “#” corresponds to attendance.
4. Meal count totals are at the bottom.

The Infant Food Serving Report is used to generate paper sheets for infant menu recordkeeping. It contains a list of all the infants, divided into the two infant age ranges, with space to record the food items and amounts offered.

The only selection required on the Infant Food Serving Report is the date range.

To run the report, make your selection and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

Reports: Claims: Total Meal Count Report

The Total Meal Count Report is a legacy report that is not often used. The report can be run by date, by roster, by name or by age and contains simple summary counts by month. The counts in this report are not broken out by meal type (i.e. AM snack, lunch, etc.).

The choices on the Total Meal Count report include the month/year and also the following options:

- Sort method:
 - “By Date”: sorts the meal counts by date.

Date	F/R/P	Count
08/02/2018	A	2
08/02/2018	C	64
		Total meals on 08/02/2018 : 66
08/05/2018	C	1
		Total meals on 08/05/2018 : 1

- “By Roster”: breaks out the counts by date and roster.

Date	Roster	Meal Count
08/02/2018	Auditorium	1
08/02/2018	School Age	2
08/02/2018	Toddler	5
08/02/2018	Unassigned	59
		Total meals on 08/02/2018 : 67
08/05/2018	Auditorium	1
08/05/2018	School Age	1
		Total meals on 08/05/2018 : 2

- “By Name”: breaks out the count by date and child’s name. This is a longer-form version of the information found in the Meal Count by Roster report.

Date	Meal Name	Name
07/02/2018	Breakfast	Roger Jones
07/02/2018	Breakfast	Susie Doe
07/02/2018	Breakfast	Nia Parker
07/02/2018	Breakfast	John James Smith
07/02/2018	Breakfast	Jane Doe
07/02/2018	Breakfast	Jane Smith
07/02/2018	Breakfast	Gavin Parker
		07/02/2018 - Breakfast Total: 7

- “By Age”: breaks out the count by date and the USDA age ranges (**note:** not the age ranges set up in licensing).

Date	Age Category	Meal Count
07/02/2018	School Age 1 (6-12 yrs)	3
07/02/2018	Preschoolers	11
07/02/2018	Toddlers	9
		Total meals on 07/02/2018 : 23
07/03/2018	Toddlers	10
07/03/2018	Preschoolers	9
07/03/2018	School Age 1 (6-12 yrs)	3
		Total meals on 07/03/2018 : 22

To run the report, make your selection and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

The Zero Meal Count Report lists dates and meals where no meals have been entered. This is especially helpful for sponsors that provide meals and snacks to sites and retain more than 15% of the reimbursement.

The only selection required for the Zero Meal Count Report is the date range.

To run the report, make your selection and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

Emergency Shelter		Zero Meal Count Report 
Date	Meal	Roster
09/17/2018	Breakfast	Room 1
09/17/2018	Breakfast	Room 2
09/17/2018	Lunch	Room 1
09/17/2018	Lunch	Room 2
09/17/2018	Supper	Room 1
09/17/2018	Supper	Room 2
09/18/2018	Breakfast	Room 1
09/18/2018	Breakfast	Room 2

The Total Attendance Report provides information about attendance only and does not include information about meal counts.

First, select the month/year and then choose from the following options:

- “By Date” provides a simple count of the number of attendance records recorded on each date.

Date	Count
07/02/2018	7
07/03/2018	7
07/04/2018	7
07/05/2018	7
07/06/2018	7
07/09/2018	4
07/10/2018	7
07/11/2018	7
07/12/2018	7
07/13/2018	7
07/16/2018	7
07/17/2018	7
07/18/2018	7
07/19/2018	5
07/20/2018	9
07/26/2018	2
07/29/2018	1
July's total attendance count: 105	

- “By Roster” provides a simple attendance count broken out by date and roster. Note: if a child is checked in on multiple rosters, this report will over-report attendance.

Date	Roster	Count
07/02/2018	Toddler	6
07/02/2018	Auditorium	1
07/02/2018	School Age	3
07/02/2018	Unassigned	1
		Total attendance on 07/02/2018 : 11
07/03/2018	Unassigned	1
07/03/2018	Toddler	6
07/03/2018	Auditorium	1
07/03/2018	School Age	3
		Total attendance on 07/03/2018 : 11

- “By Name” is a very long report broken out by date and individual child name.

Date	Participant	
07/02/2018	Gavin Parker	
07/02/2018	Jane Doe	
07/02/2018	Jane Smith	
07/02/2018	John James Smith	
07/02/2018	Nia Parker	
07/02/2018	Roger Jones	
07/02/2018	Susie Doe	
		Total attendance : 7

To run the report, make your selection and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

The Claim Summary Report provides the information needed for sponsors to enter claims for reimbursement.

The choices on the Meal Count by Roster include the month/year and also the following options:

- Claiming Method:
 - Fixed Claiming Percentage: use this if your state calculates reimbursement by blend rate once per year (i.e. your blend rate does not change from month to month).
 - Blended per Meal: use this if you report the total number of meals/snacks and then a blended, or weighted average, is applied to the reimbursement rates.

Emergency Shelter		Claim Summary						
		Blended Per Meal

Admin Funds: \$ 159.49		Food Service Funds: \$ 962.97						

- Actual Meal Count by Type: use this if your state requires that you report the actual number of A-Free, B-Reduced and C-Paid meals of each type each month.

- Types of Meals:
 - “All” should appear for all sites. This means that all participants will be on the report, including those marked as non-CACFP.
 - “CACFP” will appear for all sites. This means that only children marked as participating in CACFP will be included on the report. Non-CACFP children will be excluded.

To run the report, make your selection and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

Features of the Claim Summary Report:

1. The number of A-Free, B-Reduced and C-Paid participants is included in the footer of the Fixed Claiming Percentage and Blended per Meal Version.
2. Average Daily Attendance is calculated by dividing the total attendance for the month by the number of days the site was open.
3. Days Open: if any child is checked in for attendance OR meal count for a day, then My Food program counts that as a “day open”.
4. Total claim estimate is the meal counts multiplied by the weighted average reimbursement rate.
5. Admin funds is 15% of the value of the meal reimbursement.
6. Food Service funds is 85% of the value of the meal reimbursement plus the full cash-in-lieu of commodities.

Reports: Claims: Sponsored Site Claim Summary Report

The Sponsored Site Claim Summary Report is meant to be used by sponsors of unaffiliated centers that retain 15% of meal reimbursement for administrative expenses. This report simplifies the claim information and only displays the amount of money that the site will receive in a check (i.e. the full cash-in-lieu plus 85% of the meal reimbursement).

The choices on the Meal Count by Roster include the month/year and also the following options:

- Claiming method: choose blended or actual

- Types of Meals:
 - “All” should appear for all sites. This means that all participants will be on the report, including those marked as non-CACFP.
 - “CACFP” will appear for all sites. This means that only children marked as participating in CACFP will be included on the report. Non-CACFP children will be excluded.

To run the report, make your selection and click the green “Run Report” button. A hyperlink will appear called “Download Report”. Click the hyperlink to download or view the report.

Visits

Visits: Adding a New Visit using Mobile App

My Food Program has the ability to record and track review/monitoring visits made by sponsors to sites. There are two ways to enter visits:

1. Using the **My Food Program for Reviewers mobile app**.
2. Using a **paper-form and scanning it into My Food Program**.

To add a new review visit using the My Food Program for Reviewers mobile app:

- Download the My Food Program for Reviewers mobile app, available on Google Play, iTunes and the Amazon Appstore.
- Login using the same username and password as for the web app and the meal count app.
- Select the site for the visit.

Visits: Adding a New Visit using Mobile App

- Select the name of the review form you are going to use. **Note:** we are able to input any custom form you want! Just send us the form in any version you have available (word, PDF, etc.) and we can mimic the same form in My Food Program! This is no additional charge for sponsors.
- Proceed through each section, answering questions as you go.

Back

- Save the visit information.
 - If you are in a location without cellular or wifi connection, click the “Save to Device” when you have finished. The app will prompt you about any fields that are blank. When you are again in a location with cellular or wifi coverage, open the app again, select the saved form and then click “Submit Form”
 - If you are in a location with cellular or wifi connection, click the “Submit Form” button to record the visit.

- The visit results are now available for viewing and printing from the web app.
- Once you save a visit, an email is automatically sent to the main sponsor email account as an alert.

Visits: Adding a New Visit using Mobile App

To view or print a visit report entered using the mobile app:

- Click on “Visits” on the main dashboard.
- Click on the hyperlink for the date of the visit.
- Click on the hyperlink for the “Audit Report”.
- Print directly from your web browser.

Visits: Adding a New Visit using Web App

My Food Program has the ability to record and track review/monitoring visits made by sponsors to sites. There are two ways to enter visits:

1. Using the **My Food Program for Reviewers mobile app**.
2. Using a **paper-form and scanning it into My Food Program**.

To add a new review visit using the web app:

- Click on “Visits” on the main dashboard.
- Click the blue “Add Visit” in the upper-right corner.
- Enter the fields:
 - **Visit Date (required)**
 - Type: Select from:
 - 28-day follow-up
 - Regular monitoring
 - CAP follow-up
 - Other
 - Site audit
 - Visit Announced: check if the site was notified of the visit ahead of time.
 - Upload Visit Form: click “browse” and select the scan of the paper form.
- Upload any photographs you would like stored with the visit form.
- Click “Save”.
- Once you save a visit, an email is automatically sent to the main sponsor email account as an alert.

A screenshot of the 'Site Visit' web form. The form is titled 'Site Visit' and contains several input fields and a 'Save' button. The fields include: 'Visit Date' (text input), 'Type' (dropdown menu with 'Select' and a downward arrow), 'Visit Announced' (checkbox), 'Upload Visit Form' (text input with a 'Browse...' button), and 'Current Form' (text input with '(No Image)' below it). Below these fields is a section titled 'Photos' with a table containing a 'Photo' column and a 'Delete' column. A green 'Save' button is located at the bottom right of the form.

My Food Program has the ability to record and track review/monitoring visits made by sponsors to sites. There are two ways to enter visits:

1. Using the **My Food Program for Reviewers mobile app**.
2. Using a **paper-form and scanning it into My Food Program**.

To view a visit using the web app:

- Click on “Visits” on the main dashboard.
- Click the blue hyperlink for the visit date.
- View the form:
 - If the visit was added using the mobile app, click on the blue “Audit Report” hyperlink at the bottom of the screen.
 - If the visit was added using the web app, click on the blue “View Document” hyperlink at the top of the screen next to Current Form.

To delete a visit using the web app:

- Click on “Visits” on the main dashboard.
- Click the red “Delete” button next to the correct visit. Note: this action cannot be reversed, so please use this feature with care.
- Confirm that you wish to proceed with the deletion.
