

Meal Counts

Record count of:

- Meals Received/Prepared
- Meals Available from Previous Days
- First Meals
- Second Meals
- Meals Served to Program Adults
- Meals Served to Non-Program Adults
- Non-Reimbursable Meals
- Leftover Meals
- Number of Additional Children Requesting a Meal

Menus and Food Production

- Plan menus that comply with meal pattern requirements
- Designate favorite foods
- Save menus for future use
- Copy menus from one week to another within the same site or within multiple sites within the same sponsorship
- Generate food production records

Meal Orders

- Allow sites to enter meal order in advance according to the number needed in each age group for each meal type for each day

Food Temperatures

- Option to require food temperatures to be entered prior to meal counts
- Ability to record food temperatures at three time points: dispatch, delivery and service
- Disallow meals that are outside of the safe temperature range if required by the state agency

Sponsor and Site Set-Up

- Create unlimited sponsor users
- Three different site user types: site director/manager, kitchen staff and staff
- Ability to track staff training and upload copies of training certificates, meeting agendas and sign-in sheets
- Staff can record their hours spend on CACFP versus non-CACFP tasks and generate Staff Hours Details reports
- Ability to lock meal counts into point of service
- Turn off meal validation (for users with other systems for tracking menus)
- Upload the sponsor logo into the system to promote your organization
- Customize days open and meals served
- Track site principals and their training

Claims

- Disallow meals for not following CACFP regulations
- Generate file to upload into state agency claiming systems
*select states only
- Comprehensive claims cross-checks

Expenses

- Enter expenses, option to apply a space-time percentage to expenses

Monitoring

- Request custom review forms (we will take your monitoring form and enter it into our app!)
- Conduct a monitoring visit on a tablet
- Upload photos from a monitoring visit or scan a paper form
