## Attendance: Taking Attendance Using In/Out Times using Web App

Attendance and meal counts can be recorded three ways:

- Web app through any web browser, such as Chrome, Explorer, Edge or Safari.
- Mobile app available through the Google Play or iTunes.
- **Paper**, which must then be manually entered using the web app.

Attendance can be taken two different ways and the method is set in "Site Details".

1. Present: simply records whether the child was in attendance on a day or not

2. In/Out: records an arrival and departure time

If you would like to take attendance using the "In/Out Times", make sure that in Site Details, you have "Daily Attendance Method" set to "In/Out Times".

## To Take Attendance:

- Click on the "Attendance" button on the main dashboard.
- Select the Date (note that you cannot take attendance for future dates).
- Select the Roster for which you want to take attendance.
- When the child arrives, use the time-picker function to enter the Time In, or simply click the button that says "Now" from within the time-picker to auto-fill the current time.
- Click "Done" to save the time and then click the green "Save" button to record the time entry.
- When the child departs, use the time-picker function to record the Time Out.
- Click "Save".
- If a child arrives and departs more than once in a day (for example, a child attends the center before school and then again after school), click the blue plus sign on the far right and enter another set of arrival and departure times using the time picker.

**Note:** If you do not enter an arrival time and a participant is checked in for a meal, the "Time In" will automatically be set to the time at which the first meal or snack for the day was recorded. **Note:** If you do not enter a departure time, the system will record the departure at 11:59pm.
