

My Food Program allows you to add an additional level of checking for the total number of children in care, regardless of their age range.

In some states, there are additional restrictions on licenses. For example, the facility license may say:

- Capacity: 57
- Infants: 18
- Toddlers: 14
- Preschool/School Age: 20
- Not to Exceed 8 School Age

In this case, you need to add additional restrictions on licensed capacity. In addition to entering the numeric restrictions for infants, toddlers, preschoolers and school age, you ALSO need to add the restrictions on total capacity and the restriction on the combination of preschool and school-age.

To add additional restrictions on licensed capacity that apply to more than one age group:

- Click on “Site Details” on the main dashboard.
- Click on the blue “Add Age Range Combination” button.
- Select the age ranges that apply to the restriction and the “not to exceed” value.

Age Range Combination

Age Ranges:

Not To Exceed:

[Save](#)

- Click “Save” and the additional restrictions will appear on the screen.

Site Licensing + Add License
