✓	<b>Daily Attendance Method</b>	select “Present” or “In/Out”. See topics “Taking Attendance Using Present Option” and “Taking Attendance Using In/Out Option” in the Attendance section for further information on how these options will impact attendance entry.
✓	<b>Meal Count Time Frame</b>	select “Point of Service” or “Day”. If “Point of Service” is selected, then meal counts can only be entered during the meal time frame by staff. If “Day” is selected, then meal counts can be entered any time during the day. Meal counts can never be entered before a meal has started, regardless of the choice of meal count time frame.
	Restrict All Site Staff Meal Count Times (defaults to unchecked)	this requires even Site Director/Managers to enter meal counts within the specified time frame. If you have this box checked, then Site Director/Managers cannot go back and correct meal counts from prior days or times.
✓	<b>Time Zone</b>	ensure that you select the correct time zone for the site as meal times are locked in accordance with the time zone adjustments.
✓	<b>Meal Count Method</b>	select “Headcount” or “Roster”. See topics “Taking Meal Counts by Name” and “Taking Headcount Meal Counts” in the Meal Counts section for further information on how these options will impact meal count entry.
✓	<b>Meal Count Entry</b>	select how you want your screen to look when taking meal counts. Options include “Daily entry with separate screens for attendance and meal counts”, “Daily entry with combined screen for attendance and meal counts”, “Daily entry of meal counts only (attendance records kept outside of My Food Program)”, “Weekly attendance and meal count from paper” or “Monthly Bulk Entry by Name”.
	Infant Menu Method	select “By Date” or “By Name” for how you want to record infant menus.
	Reimbursement Method	select “Actual Meal Count by Type” or “Blended per Meal”.
	Require menus before meal counts	if this flag is checked, then users are required to enter a menu before they can check children in for a meal. They will receive a proactive message on the web and mobile app telling them that the menu is required. In addition, menu cannot be edited after a meal count is entered. *Does NOT apply to infant rosters.
	Require finalized food production records before meal counts	if this flag is checked, then users are required to enter a menu, create a food production record and finalize that food production record before children can be checked in for a meal. They will receive a proactive message on the web and mobile app telling them that a finalized food production record is required. In addition, the food production record cannot be deleted after a meal count is entered. *Does NOT apply to infant rosters.
	Allow Sites to Download Pre-Filled Participant Registration Forms (income and/or enrollment forms)	select this if you would like your sites to download the pre-filled participant registration forms. Sponsors using only electronic forms or only their own paper forms may want to leave this box unchecked.

REQUIRED	FIELD	DESCRIPTION
	Allow sites to use typical times from participant schedules for in/out attendance	select this if you would like your sites to use the typical times listed in the participants schedule for in/out attendance.
	Shifts are an option for Meal Times (defaults to unchecked)	this allows users to record participants in shifts for meals. See separate instructions for details.
	Hide option for staff to take attendance (defaults to unchecked)	if this button is checked, staff can only take meal counts and not attendance. See separate instructions for details.
	Enhanced sponsor control of available food items	select this option if you want to manage the foods available to sites. When this box is checked, sites are restricted to adding only Favorite Foods to their menus and Sponsors have control over the Favorite Foods List.
	After School Program (ARAM)	select this option for sites that offer the After School Program (ARAM).
	Ignore Meal Validation (defaults to unchecked)	if this button is checked, meals are not checked for validation at all. This means that menus can be missing all together or contain non-creditable foods. Use this feature with care and it means that you are turning off all validation of creditable meals.
	Site is Self-Sponsored (defaults to unchecked)	use this box if you are a single-site sponsor. See separate instructions for details.
	Invoicing Feature (defaults to unchecked)	checking this box turns on the ability for a site to generate invoices for children based on their number of hours or days in care and the daily rates. See separate instructions for details.
	Allow meal orders to be entered using the mobile app	checking this box allows you to enter meal orders using the My Food Program mobile app.
	Hide Check for Errors Button	checking this box means that the site cannot see their claim errors prior to submitting their claim to their sponsor.
	Hide Submit to Sponsor Button (defaults to unchecked)	some sponsors find that sites prematurely and accidentally click the “Check or Errors or Submit to Sponsor” button, which then locks them out of entering meal counts or menus. If you would like to hide the “Check for Errors or Submit to Sponsor” button until a calendar month is complete (and therefore prevent this mistake from happening), then select this feature. The downside of this feature is that sites may wish to submit their meal counts to their sponsor prior to the completion of a calendar month (for example, the final day of a calendar month lands on a weekend).
	Allow Staff to Add Participants on Mobile	this box is checked by default. Uncheck the box if you’d like staff to be restricted from adding participants using the mobile app.
	Do not include ARAM participants in income and enrollment form reminders	checking this box means that participants marked as participating in the at-risk afterschool meals program will not appear on the Missing Forms Report or be included in the dashboard button prompt regarding participant with missing, expired or expiring forms.

REQUIRED	FIELD	DESCRIPTION
	Payment Method	select either “Check” or “Direct Deposit”.
	Space/Time Percentage	entering a number in this field will mean that only a percentage of your expenses will be included in expense reports. See separate instructions for details.
	Notes	use this field to enter notes for the site. These notes are visible to the site users.

✓	<b>Enrollment Form Errors</b>	if you want My Food Program to disallow meals if a child is missing an enrollment form, then you should select “Error”. If your state agency doesn’t require enrollment forms or you have another way of tracking required CACFP enrollment information, then select “Ignore”. If you set Enrollment Form Errors to “Ignore” the dashboard button for missing enrollment forms turns grey.
✓	<b>Missing Infant Menu Errors</b>	if you want infant meals disallowed if no infant menus are entered, select “Error”. If you have an alternate way of tracking infant menus or are not required to keep infant menus, then select “Ignore”. If you want to ignore missing menus for children under 6 months while still enforcing the menu requirement for children ages 6-11 months old, then select “Ignore for infants under 6 months, Error for infants 6-11 months”.
✓	<b>Missing Infant Notification Errors</b>	If you want meals for infants disallowed if they are missing an Infant Meal Notification, then select Error. The Infant Meal Notification is the form that indicates if the parent or the provider is supplying the breastmilk/formula and solid foods. If you want to pay for infant meals even if no Infant Meal Notification is on-file, then select Ignore.
✓	<b>Facility License Missing/ Expired</b>	if you want to disallow meals for a missing or expired facility license, then select Error. If you do not want to disallow meals for missing or expired facility license, then select Ignore.
