

Attendance: In/Out Times with Meal Outside of Normal Schedule using Web App

To take attendance using the web app:

- Click on the “Attendance” button on the main dashboard.
- The current date will auto-populate or select the date (note that you cannot take attendance for future dates).
- Select the Roster for which you want to take attendance.
- Notes to Sponsor: centers now have the ability to write a note to the sponsor on their attendance page. These notes feed into a sponsor-level report that lists the notes submitted by the sites.
- When the child arrives, use the time-picker function to enter the Time In, or simply click the button that says “Now” from within the time-picker to auto-fill the current time.
- You can also click the “Use Typical Times” button to pre-fill the arrival or departure time from the enrollment form participant schedule.
- Click “Done” to save the time and then click the green “Save” button to record the time entry.
- When the child departs, use the time-picker function to record the Time Out.
- If a child is attending outside of their normal schedule, select the “Meal Outside of Normal Schedule” box and provide a reason.
- Click “Save”.
- If a child arrives and departs more than once in a day (for example, a child attends the center before school and then again after school), click the blue plus sign on the far right and enter another set of arrival and departure times using the time picker.

Notes:

- If you do not enter an arrival time and a participant is checked in for a meal, the “Time In” will automatically be set to the time at which the first meal or snack for the day was recorded.
- If you do not enter a departure time, the system will record the departure at 11:59pm.
